- Postman

👤 PROFESSIONAL SUMMARY

A React Native Developer with 2 years of dedicated experience, proficient in crafting robust and user-centric mobile applications for both iOS and Android platforms. My extensive expertise includes leveraging React Native's capabilities effectively, optimizing performance, ensuring seamless UI/UX, and collaborating seamlessly within cross-functional teams to deliver high-quality, scalable mobile solutions.

💼 EXPERIENCE

Software Developer

Select Source International, USA:

March' 2022 - January' 2024 (Indore)

Project: Jobma Inc (Candidate Interview App for HRs & Employers)

Roles and Responsibilities:

- Developed and maintained React Native components, screens, and features for the mobile app using TDD practices.
- Performed API calls with Axios, forms with react-hook-form, and routing with react-navigation.
- Proficient in the full mobile app development lifecycle right from prototyping React-Native, Redux, XCode, Android studio, Javascript, and TypeScript.
- Solid understanding of RESTful API integration, UI/UX design principles, and data management.
- Key contributor in crafting & enhancing the app's user interface using a variety of components including View, TouchableOpacity, Checkboxes, Text, libraries, and Image
- Implemented enhancements to the feedback screen in our app, resulting in a 3x increase in feedback submission rate.
- Successfully integrated third-party libraries and APIs, enhancing app functionality and contributing to a 10% increase in user satisfaction ratings.
- Implemented key features such as a camera module, push notifications, social media log in, and robust authentication & security protocols, resulting in a significant rise in user engagement metrics.
- Developed comprehensive test plans, mentored junior engineers, and supported QA testing efforts, ensuring smooth release cycles.
- Implemented unit tests to uphold code quality standards, contributing to a robust GitHub Repository. Collaborated with team members to maintain codebase integrity.
- Proficient in creating cross-platform mobile apps with consistent performance and design on iOS and Android platforms.
- Actively engaged in design discussions for application architecture and feature roadmap, ensuring alignment with project objectives.
- Experienced in the mobile app deployment process on both Apple App Store and Google Play Store.
