PROFILE

Detail-oriented and analytical IT professional with 2 years of experience as a software tester, seeking to leverage my skills in data analysis, requirements gathering, and problem-solving in a Business Analyst role. Adept at translating business needs into technical solutions and fostering effective communication between stakeholders and development teams.

WORK EXPERIENCE

Software Tester - Limenzy Technologies Pvt Ltd, Kerala Sep 2022 - Feb 2024

- Gathered and analyzed business requirements from stakeholders, translated them into functional specifications, and documented user stories for development teams.
- Executed functional, regression, and user acceptance testing (UAT) to ensure software met business requirements and quality standards.
- Collaborated with cross-functional teams, including developers, designers, and project managers, to ensure successful delivery of software projects.

Software Testing Specialist - Luminar Technolab, Kerala Nov 2021 - Apr 2022

- Developed and executed automated test scripts using Selenium WebDriver with TestNG and JUnit frameworks, resulting in a 40% reduction in testing time and increased test coverage.
- Conducted performance testing using tools like JMeter, identifying and resolving bottlenecks that improved application response time by 20%.
- SDLC and STLC, test planning, test design, execution, defect tracking, and reporting.
