Abdul Haseeb Mirza

Full Stack Software Developer

Rawalpindi, Pakistan • +923165150123 • haseeb943@gmail.com • linkedin.com/in/haseeb943 • github.com/haseeb98

I am a versatile and driven full stack developer with a passion for creating seamless and intuitive user experiences. With expertise in both mobile and web development, I excel in building responsive interfaces, integrating APIs, and implementing efficient navigation systems. I am proficient in server-side logic, RESTful API creation, and database integration. My collaborative nature and strong problem-solving skills enable me to thrive in cross-functional teams. Committed to staying ahead of the curve, my future goals include expanding my skill set, keeping up with industry trends, and leveraging emerging technologies to develop innovative and impactful applications.

PROFESSIONAL EXPERIENCE

Full Stack Developer   Oct. 2022 – Au. 2023
Interactivist AB (HayHay)   *Stockholm, Sweden - Remote*

Due to unforeseen circumstances, the company experienced a work shortage, leading to my departure from the position. References can be provided upon request to attest to my contributions and performance during my time at the company.

- Developed and maintained the HayHay mobile application using React Native, ensuring a seamless user experience on both iOS and Android platforms.
- Worked on various features such as a feed for posting and commenting, a community chat section, and user profile customization, user onboarding experience, allowing riders to share knowledge and engage with the community.
- Utilised React and styled-components to create responsive and visually appealing user interfaces, enhancing the overall look and feel of the app.
- Ensured the app's stability and performance through debugging, testing, and optimization, resulting in a smooth and efficient user experience for all HayHay app users.
- **Primary technology used**: React, Expo, React Native, Recoil, JavaScript, Typescript, styled components, Firestore, Firebase Functions, Node.JS, Gatsby, HTML, CSS, Git, ClickUp

Full Stack Developer   Jul. 2022 – Sep. 2022
DEADASSS   *Remote*

- The app was initially built using React Native, but recognizing the need for a more robust and efficient framework, I spearheaded the migration process from React Native to Expo.
- In addition to the migration, I focused on integrating video call notifications into the app, ensuring that users would receive timely alerts and updates for their video calls, thereby enhancing their communication experience.
- Recognizing the importance of user interface (UI) design, I dedicated my efforts to improving the app's UI. By implementing intuitive layouts, enhancing visual elements, and optimizing interaction patterns, I aimed to create a seamless and visually appealing user experience.
- As part of my responsibilities, I diligently addressed various bugs and issues within the app. Through thorough analysis, rigorous testing, and effective troubleshooting, I successfully resolved these issues, contributing to the overall stability and reliability of the app.
- Throughout my involvement with the project, I played an instrumental role in the migration, integration of video call notifications, UI enhancements, and bug fixes, utilizing my skills and expertise to drive progress and ensure a high-quality app for users.
- **Primary technology used**: React Native, React, Expo, Node.js, JavaScript, Express.js, MySQL, Google Cloud Messaging

EDUCATION

Preston University, Islamabad, Pakistan
Bachelor of Science — Computer Science
- **Courses**: OOP in Java, Compilers, Algorithms, Operating Systems, Data Structures

COURSES

Coursera - **Meta React Native Specialisation**

June 2023 - https://www.coursera.org/account/accomplishments/specialization/FTMAXY4P5N8T

Completed Meta Meta React Native Specialisation, gaining expertise in React Native app development, data handling, JavaScript programming, mobile development, version control, UX/UI design principles. Completed capstone project and obtained course certificates.

- Coursera - **Introduction to Front-End Development**

  June 2023 - https://www.coursera.org/account/accomplishments/certificate/6HJ58KAYUD76

- **HackerRank** - **React (Basic) Certificate**

  June 2023 - https://www.hackerrank.com/certificates/2564d68f7e34?utm_medium=email&utm_source=mail_template_1393&utm_campaign=hrc_skills_certificate

  React (Basic) It covers topics like Basic Routing, Rendering Elements,State Management (Internal Component State), Handling Events, ES6 and JavaScript and Form Validation.
