OBJECTIVE

I'm a Dedicated and detail-oriented software developer seeking a challenging role to contribute technical expertise and innovative solutions to a dynamic team."

EXPERIENCE

*September 2023 -
December 2023*

- **Mobile App Developer**
Flaury

*July 2023 - November
2023*

- **Mobile App Developer**
Godaesil

- Collaborated with cross-functional teams to design, develop, and deploy the front-end of the logistics app using Flutter framework (Get X).
- Translate UI/UX designs and wireframes into high-quality, responsive, and efficient Flutter code.
- Implemented smooth and fluid animations and transitions to create an interactive and delightful app experience.
- Collaborated with the backend team to implement real-time messaging and notifications, ensuring smooth communication between drivers, dispatchers, and clients.
- Ensured codebase maintainability through the use of modular architecture, clean code practices, and reusable widgets.
- Applied performance optimization techniques to guarantee smooth app performance even with large data sets.

*August 2023 - October
2023*

- **Mobile App Developer**
Parple

As a mobile app developer at Parple, a premier ticketing company in Cyprus, I played a pivotal role in crafting innovative solutions for seamless event and party ticketing experiences.

Leveraging the power of GetX and Firebase, I contributed to the development of a robust mobile application that streamlined ticket purchasing, event discovery, and user engagement.

My responsibilities included implementing features that enhanced the app's performance, ensuring a smooth and intuitive interface, and integrating Firebase for efficient data management and real-time updates.

Working in this dynamic environment allowed me to contribute to the success of Parple, making

event attendance in Cyprus a hassle-free and enjoyable experience for users.
