Highly skilled React Native Developer with 3 years of experience in developing and maintaining cross-platform mobile applications. Seeking a challenging role to leverage my expertise in React Native and Android development to deliver innovative solutions.

SKILLS

Programming Languages: JavaScript, TypeScript, Java, Kotlin

Framework/Libraries: React Native, Redux, React Navigation, Android SDK.

Tools: Git, Android Studio, Xcode, Visual Studio Code, JIRA.

CI/CD: Jenkins

Database Management: SQLite, Firebase.

PROFESSIONAL EXPERIENCE

React native developer - Gloify

Dec 2022 - Present

- Developed and maintained cross-platform mobile applications for various clients using React Native.
- Collaborated with cross-functional teams, including designers, product managers, and backend developers, to define, design, and ship new features
- Integrated third-party APIs and services, such as Firebase, RESTful APIs, and Google Maps, to enhance app functionality.
- Conducted code reviews and mentored junior developers on best practices and coding standards.

Android developer – Load Infotech

Sept 2021 - Dec 2022

- Designed and implemented Android applications using Java/Kotlin.
- Ensured timely and accurate updates by implementing Google Sheets as a database.
- Enhanced user experience by implementing responsive designs with XML and constraint layouts.
- Mentored junior developers in best practices..

Intern - Kwikbiz

July 2021 – Sep 2021

- Skillfully negotiated contracts, partnerships, and other business deals, ensuring mutually beneficial agreements.
 - Conducted comprehensive market research to identify emerging trends, customer needs, and potential growth areas.
 - Cultivated strong relationships with clients, partners, and stakeholders, identifying new business opportunities.
 - Conducted effective meetings with clients, fostering clear communication with development teams.
-

PROJECTS

- **Etravelmate** : Implemented sockets to build chat and location tracking features. Used google maps api to search places and to build path between user and driver's location. Implemented push notifications and social login. Uploaded to the app store and play store.
 - **Pluto (Expense Manager)**: Implemented Axios for network calling, Integrated charts and graphs to visualize spending patterns and financial summaries. Used redux toolkit for global state management.
 - **Yatharth geeta**: Effectively used redux toolkit and implemented a music player and video player. Implemented pdf viewer and voice search functionality. Implemented Axios for network calling
 - **Casewise**: Implemented Dark and light themes. Implemented Razorpay and stripe payment gateway. Used Axios for network calling and TypeScript for robust development.
 - **WeConnect (CRM)**: Designed a CRM app with RxJava, LiveData, MVP architecture, default dialer, and call recording. Enabled users to call customers, collect feedback, and book services efficiently.
-

Certifications:

- [Cutshort certified Android development.](#)
 - [Attended webinar as a mentor and gave a lecture on intro to mobile application development.](#)
 - [ShapeAi certificate of appreciation.](#)
-

EDUCATION

- **B.Sc.** – Govt. PG. College , Baran, Rajasthan
