Tomsk state univeristy

2025 | Tomsk, Russia

🧠 SKILLS

- React/React native
- Typescript
- Code review and Software Design

📁 PROFESSIONAL EXPERIENCE

Tickets cloud

React native software engineer

present | Tomsk, Russia

- Spearheaded the development of native modules to optimize and extend the capabilities of React-Native applications.
- Implemented code-push build automation utilizing AppCenter, and Sentry, and managed intricate pipelines for seamless integration.
- Revised, modularized, and updated old code bases to modern development standards, reducing operating costs, and improving functionality.
- Led the integration of push notification and socket technologies, enhancing real-time communication features in the applications.
- Played a key role in architecting and refining a complex development pipeline to ensure efficiency and reliability.
- Discussed issues with team members to provide resolution and apply best practices.
- Translated customer requirements into written use cases.
- Corrected, modified, and upgraded software to improve performance.
- Authored code fixes and enhancements for inclusion in future code releases and patches.
- Proactively explored and incorporated innovative technologies to improve overall development processes and product quality.

Zennex

React native developer

2020 | Tomsk, Russia

- Collaborated with the development team to create responsive and user-friendly interfaces for web and mobile applications.
- Engaged in agile development methodologies, ensuring timely delivery of features and updates.
- Managing Git for optimal version control, utilizing branching, merging, and rebasing to ensure seamless collaboration and maintain code integrity.

Risoftol Studio

React Native Freelancer

Moscow, Russia

- Delivering projects by exact deadlines
- Participated with clients to get the best design for their users
- Applied different custom components in both mobile and web
- Negotiated fees and contracts to reach mutually beneficial agreements with clients.
- Designed and implemented new features and enhancements to improve existing applications.
- Analyzed user feedback to gather input and identify areas required for improvement.
