PROJECTS

- **IIFL Market:** Led the development of IIFL Market, a comprehensive trading platform offering seamless trading across all market segments. Empowered users with educational resources to learn different charting techniques and conduct in-depth analysis using the application's built-in tools. Leveraged advanced technologies to ensure a smooth trading experience, positioning IIFL Market as a go-to solution for both novice and experienced traders.
- **5 Paisa:** Played a pivotal role in crafting 5 Paisa, an innovative trading app facilitating effortless trading across diverse market segments. Introduced intuitive charting functionalities and analysis tools, empowering users to make informed investment decisions. Seamlessly integrated trading capabilities to provide a frictionless trading experience, solidifying 5 Paisa's position as a trusted platform for investors.
- **IIFL Mutual Funds:** Spearheaded the development of IIFL Mutual Funds, a specialised app tailored for trading in mutual funds. Seamlessly integrated with the IIFL Market ecosystem, this app provided users with access to a wide range of mutual funds and insightful analysis tools. Streamlined the trading process and introduced features for efficient portfolio management, catering to the unique needs of mutual fund investors within the IIFL ecosystem.
- **Mobile Invest (Aditya Birla Money):** Engineered Mobile Invest, a robust trading application offered by Aditya Birla Money, enabling users to trade across various market segments with ease. Implemented advanced charting features and analysis tools, empowering users to conduct comprehensive market analysis. Orchestrated seamless trading experiences through intuitive design and efficient order execution, positioning Mobile Invest as a preferred choice among traders.
- **Pro terminal (HDFC Bank):** Architected Pro terminal, the trading application utilised by HDFC Bank, offering a comprehensive suite of trading functionalities across all market segments. Integrated cutting-edge charting tools and analysis capabilities, empowering users to make data-driven investment decisions. Orchestrated a seamless trading experience with robust order execution mechanisms, establishing Pro terminal as a reliable platform for traders within the HDFC Bank ecosystem.
