## Work Experience

**February 2022 - August 2022**

### React Developer

**Orangetheory Fitness**

- Developed new user-facing features using React.js
- Built reusable components and front-end libraries for future use
- Translated designs and wireframes into high-quality code
- Optimized components for maximum performance across a vast array of web-capable devices and browsers.
- Collaborated with internal teams on testing processes, including unit tests and the use of coverage reporting tools

**May 2017 - January 2022**

### Full Stack Engineer

**inVerita**

- Developed a dynamic and interactive website that ensured high traffic, page views, and user experience.
- Revamped web security applications, and minimized hacker attacks from 2.3% to 0.02%.
- Deployed web applications to AWS, Microsoft Azure, etc.
- Identified and dealt with a significant process bottleneck that boosted coding efficiency by 35% when resolved.
- Enforced Agile and Scrum development methodologies on interface projects to shorten development times.
- Conducted unit testing to deliver optimal browser functionality using Jest, Cypress, Mocha, and Chai.
- Developed Dapps and integrated them with blockchain using web3.js and ether.js.

**January 2017 - March 2017**

### Frontend Developer

**Villing Company**

I worked for this company on a contract.
At that time, I worked on projects which were developed by Vue.js and Angular.
I wrote reusable components and optimized website performance.
While doing the project, I got experience in front-end development.

**May 2015 - November 2016**

### Web Developer

**Interlink Group, Inc**

- Translate UI designs into well-organized and structured HTML/CSS compatible with modern browsers.
- Fixed bugs on existing websites and implemented enhancements that significantly improved web functionality and speed.
- Planned and developed a company's expense management system using Laravel and PostgreSQL.
- Developed a user-friendly website, including an optimized check-out page that increased user clicks, and subsequently customers purchased by 20% using Vue.js
- Designed and implemented RESTful web services using Laravel.

## Education

2011 - 2014

**Florida State University**

**Computer Science**

## Skills

| | | | | | |
|---|---|---|---|---|---|
| JavaScript | TypeScript | PHP | Laravel | HTML5 | React |
| ReactNative | Vue.js | Angular | Node.js | GraphQL | Docker |
| Jenkins | React Testing Library | Cypress | Express | Next.js | Python |
| Django | Nest.js | AWS | Azure | | |
