

AMIR RASHID GANIE

React Native Developer

OBJECTIVE

Enthusiastic and dedicated React Native Developer with a strong foundation in mobile app development and a deep passion for creating innovative and user-friendly applications. Recently graduated with a degree in Bachelor of Science in Computer Science (B. Sc) and eager to contribute my skills and knowledge to a dynamic development team. Proficient in JavaScript, React Native, and eager to learn and adapt to new challenges. Adept at collaborating with cross-functional teams and excited to bring fresh ideas to projects. Looking for an opportunity to grow and excel in a professional environment while delivering high-quality code and creative solutions.

EDUCATION -

- Bachelor of Science in Computer Science (B. Sc), Lovely Professional University, Phagwara, India (2020-2023)
- Higher Secondary School From J&K BOSE (2018 2019)
- Secondary School From J&K BOSE (2016 2017)

CERTIFICATION

Full Stack Web Development

React Native and TailwindCSS

- UDEMY

Front-End Web UI Frameworks: Bootstrap 4

- COURSERA

KEY SKILLS

- App Development:
 - Proficient in HTML, CSS, TailwindCSS, JavaScript, React.js, Next.js, REST API, React Native, SEO
 - Experienced in building dynamic and responsive web/mobile applications using Next.js and React Native.
- Content Management Systems (CMS):
 - Skilled in integrating and managing content using CMS platforms, with expertise in Sanity.
- UI/UX Design:
 - Applied UI/UX design principles to create visually appealing and user-friendly interfaces.
- Styling:
 - Utilized Tailwind CSS for efficient and scalable styling solutions.
- Version Control:
 - Experienced in using Git for version control, ensuring collaborative and organized development.
- Problem-Solving:
 - Demonstrated excellent problem-solving skills in resolving technical challenges and optimizing application performance.
- Attention to Detail:
 - Strong attention to detail in coding, debugging, and ensuring the overall quality of the web applications.
- Independence and Teamwork:
 - Proven ability to work independently and collaboratively as part of a development team, contributing effectively to project success.
- Communication:
 - Excellent communication skills, facilitating clear and effective collaboration with team members, stakeholders, and

PROJECTS

1. NFT Marketplace App:

Description: Developed a cutting-edge cross-platform NFT (Non-Fungible Token) Marketplace mobile application using React Native. Engineered a visually stunning and responsive user interface with Tailwind CSS, ensuring a seamless experience for users on various devices. Implemented Axios for efficient data communication, enabling users to securely browse, buy, and sell digital assets within the app.

Key Achievements:

- Created an engaging and secure mobile app, providing users with a platform to explore, purchase, and sell NFTs.
- Utilized Tailwind CSS to design a responsive and aesthetically pleasing user interface, enhancing the overall user experience.
- Integrated Axios for seamless communication with backend services, ensuring reliable and real-time data updates.

2. Live Cricket Score App:

Description: Designed and developed a dynamic real-time Live Cricket Score mobile application using React Native. Crafted an intuitive and visually appealing user interface using Tailwind CSS. Integrated Axios to retrieve live cricket data from the Rapid API source, delivering up-to-date match scores, player statistics, and live updates. The app caters to cricket enthusiasts, providing a comprehensive solution for staying informed about their favorite sport.

Key Achievements:

- Engineered a feature-rich mobile app, offering cricket enthusiasts real-time access to live scores, player statistics, and match updates.
- Utilized Tailwind CSS to create a visually appealing and user-friendly interface, enhancing the app's overall accessibility and appeal.
- Integrated Axios for efficient data retrieval, ensuring the app delivers accurate and timely cricket information.

3. E-commerce Website

Description: Designed and developed a fully functional E-commerce website from the ground up, utilizing a modern tech stack to ensure a seamless user experience. The project involved the implementation of responsive and user-friendly interfaces, incorporating advanced features for a dynamic online shopping platform.

Technologies Used:

- Frontend: HTML, CSS, JavaScript, React.js, Next.js
- **Styling:** Tailwind CSS for a clean and efficient design
- APIs: Utilized Next.js API routes for serverless functions and seamless backend integration
- State Management: Employed state management techniques in React.js Hooks for efficient data handling
- **CMS Integration:** Integrated Sanity as a content management system (CMS) for easy content updates and maintenance
- Routing: Implemented Next.js router for smooth navigation within the application
- API Testing: Utilized Postman for thorough API testing, ensuring robust functionality
- Additional Packages: Integrated third-party packages such as React Icons for enhanced UI elements

Key Achievements:

- Developed a visually appealing and responsive UI/UX design to enhance user engagement.
- Implemented efficient client-side routing for a seamless browsing experience using Next.js.
- Integrated a content management system (Sanity) for easy content updates, improving site maintenance.
- Ensured high-quality code by incorporating best practices and following industry standards.
- Conducted comprehensive API testing using Postman to guarantee the reliability and security of backend services.
