Anas Tely

SOFTWARE ENGINEER (React Native Mobile Developer)

Palestine / +972597093830 / anastely86@gmail.com / LinkedIn / Github

As a mobile developer with a strong focus on delivering high-quality applications, I am fully committed to developing innovative and user-friendly Android/iOS apps using React Native. With a passion for mobile development, I stay up-to-date with the latest technologies and am always eager to learn and improve myself. My experience in collaborating with diverse teams has honed my communication and interpersonal skills, enabling me to work effectively with others. I am excited to leverage my expertise in React Native and soft skills to contribute to the success of your team.

Experience

ORDER, KSA
Mobile Developer, May 2021 – Present
- **Refactored** the current application from the legacy codebase to **TypeScript,** resulting in improved code maintainability and performance.
- **Supporting** and fixing live bugs.
- Managed **Deployment** to production with **CI/CD technologies** for over **150** clients, ensuring timely and successful releases.
- Improved **developer experience** by creating an easy-to-go environment for the app, resulting in increased efficiency and productivity.
- Implemented new features for the current **SaaS** app, leading to a 40% increase in user engagement and satisfaction.

Projects

Sudus App
- Enhanced the shopping experience for users by developing features such as product search/browsing and product purchases.
- Facilitated easy transactions for users by implementing online payment/cash options.
- Increased the accessibility of the app by adding multi-language support.
- Ensured a smooth and seamless user experience by optimizing the app for all devices.

Salony App
- Developed the Salony App, a platform that connects users with service providers, by creating the user interface and implementing features such as online payment integration and messaging capabilities.
- Enabled users to easily schedule appointments at salons, beauty clinics, or home services, improving their overall experience.
- Streamlined the registration process for providers by allowing them to register as a salon, beauty clinic, or home service provider on the platform.
- Check the Salony App link for more information on the project. [Link]
