SUMMARY

With **1+ year of hands-on experience**, I am a dynamic and results-oriented **Mobile Application Developer** skilled in delivering high-quality mobile applications. My strong foundation in frontend technologies and proven track record of working through the **Software Development Life Cycle** demonstrate my effectiveness in project management. I possess excellent **managerial and leadership** skills, motivating teams to achieve project objectives. **Quick to grasp** new concepts and technologies, I **adapt seamlessly** to evolving project requirements.

PROFESSIONAL EXPERIENCE

ASSOCIATE SOFTWARE ENGINEER   *FEBRUARY 2023 – PRESENT*
QUARA DIGITAL PVT LTD.   *Gurugram/Remote*

Project: Wasalt, it is your one-stop portal to all your real estate needs, from searching for properties, to buying, renting, real estate marketing and even listing for both the commercial and residential sector in Saudi Arabia.

- I work as a Mobile Application developer, developing software modules and implementing functionalities for Real estate "Wasalt" Hybrid Mobile Application (Android & IOS) using **React Native** tech stack.
- Working with **Redux** library for Global State Management.
- Implemented **REST API** integration within the project to enable the retrieval of dynamic **JSON data.**
- For **API integration** & Asynchronous Action used the **Saga Middleware.**
- Incorporated the **'X-Request-ID' (UUID)** HTTP header **to trace APIs** within the access log, **enhancing correlation capabilities across microservices.** This initiative resulted in a 15% enhancement in overall system efficiency
- Proficiency in **react hooks** and **state management-libraries.**
- Utilize cutting-edge technologies and tools to produce high-quality software products, ensuring 100% schedule adherence and timely submission of deliverables.
- Optimize the Post Property Module in B2B Project using Techniques like - **Code Splitting, Higher Order Components, Custom Hooks, Redux Toolkit, Reduce the unnecessary API Calling By which performance Gets improved by 2X times of Entire Post Property module.**
- Prepare an impact analysis document aligned with product requirements, writing unit test by executing test cases, and ensure error-free delivery with 0 bugs.
- Resolved/Fixed over **120+ Sonar issues to enhance code quality**.

EDUCATION

Mahatma Jyotiba Phule Rohilkhand University - Bareilly   *OCT 2021 – MAY 2023*
Master of Computer Application   CGPA – **7.96/10.00**

Invertis University – Bareilly   *Aug 2018 – Jul 2021*
Bachelor of Computer Application   CGPA – **7.00/10.00**

SKILLS

Languages: C++, HTML5, CSS3, JavaScript, Python, SQL
Libraries/Frameworks: ReactJs, React Native, Redux, Redux Saga Middleware, Jest
CS Fundamentals/CCP: Firebase, Data Structures and Algorithms, OOPs, Cloud Computing, Database Management System, Operating Systems, Asynchronous Programming
Utilities: VS Code, XCode, Android Studio, Git, Gitlab, Flipper, Slack, JIRA, Postman, homebrew, npm, yarn.

CERTIFICATION

Certificate: **Machine Learning and Data Science With Python** by Goeduhub Technologies   *May- July 2021*
Certificate: **Web Application Development** by Skill Up   *January 2022*
