+92306-9732119
aqdasmurad@gmail.com

SKILLS

- JavaScript
- Reactjs
- Node js
- Mango DB
- MySql
- Expressjs
- Git (GitHub)
- Redux
- Android Studio(java , Xml)
- HTML , CSS , Bootstrap4
- Material UI
- Firebase
- Reactstrap
- Firebase

PERSONAL PROJECTS

🔗 Login And Registration

- Login And Registration with JWT authentication and Session Maintenance
- Developed using **React JS, , Firebase ,Bootstrap**

🔗 Vidpoadmin

- A word guessing game
- Developed using **React JS**

🔗 React UI

AgencyFr , Empirecars ,Blist ,TCCC

🔗 TO-DO React App

- Developed using **React JS, Redux**

FINAL YEAR PROJECT

🔗 My Karigar (A platform like fiver for local skilled workers)

- My Karigar is a platform where local skilled workers can sell their services and people can easily buy their services without visiting their shops and wasting time. The proposed system bridge gap between service providers and customers, to let the consumers buy services from service providers from comfort of their home.

- Developing Using **React JS, Node JS, MongoDB, Express JS**

- Object-Oriented Programming
- Software Requirement and Specification
- Software Design and Architecture
- Database Systems

EDUCATION:

BS Software Engineering - UOG Courses

- Object-Oriented Programming
- SoftwareApplication Development
- Software Verification and Validation
- Computer Communications and Networks
- Software Project Management
- Artificial Intelligence
- Software Requirement and Specification
- Software Design and Architecture
- Database Systems
- Object-Oriented Software Engineering
- Advanced Web Development
- Web Engineering
