PROJECTS

Family Mart Supermarket (ANDROID + FLUTTER) Nov 2021 - Jun 2022

Developed a project for FamilyMart Supermarket, enabling convenient access to billing history and linked ledgers for customers. Seamlessly integrated customer accounts with the billing system for personalized data access. The project's success improved customer satisfaction and streamlined accounting processes, showcasing my proficiency in application development and client relationships.

- Implemented user suggestions post-accomplishment, leading to a remarkable increase in downloads. Achieved 100+ downloads in the **Google Play Store**.

Learning Management Solution (FLUTTER) Jul 2022 - Jun 2023

Developed a Learning Management Solution project in Native Android and Flutter. The project facilitates effective collaboration between educators and learners. The Native Android app boasts feature-rich functionality and smooth UI/UX, while the Flutter part ensures cross-platform compatibility. Demonstrates proficiency in both technologies and commitment to innovative educational solutions.

- Implemented user suggestions post-accomplishment, resulting in a significant increase in downloads. Achieved **5000+** downloads in the **Google Play Store**.
