- PLAYING CRICKET
- COOKING
- WATCHING MOVIES
- TRAVELLING

# BADDAR LATIF

## SUMMARY

Dedicated and results-driven Software QA Engineer with five years of extensive experience in ensuring the quality and reliability of software products. Proficient in all aspects of testing, including test planning, execution, defect tracking, and test automation. Proven ability to work collaboratively with cross-functional teams to deliver high-quality software within project timelines. Adept at identifying complex issues, developing innovative solutions and continuously improving QA processes.

## EXPERIENCE

### Senior QA Engineer

Gap Dynamics Pakistan & Dubai

Jul 2020 - Jul 2023

- Led the end-to-end testing efforts for multiple complex projects, collaborating closely with development and product teams.
- Designed and executed comprehensive test plans, including functional, regression, integration, and performance testing.
- Implemented test automation frameworks using tools such as Selenium and JUnit, resulting in a 30% reduction in testing time.
- Developed and maintained automated test scripts, enhancing the efficiency and accuracy of test execution.
- Conducted thorough root cause analysis of defects and provided actionable recommendations for continuous improvement.

### QA Engineer

Miczon LLP Pakistan

Jul 2018 - Jul 2020

- Mentored junior QA team members, providing training and guidance in testing methodologies and best practices.
- Collaborated with business analysts to review and validate requirements, ensuring a comprehensive understanding for testing purposes.
- Coordinated with offshore teams to streamline testing efforts, optimizing resource allocation and project timelines.

## EDUCATION

### Bachelors of Computer Science

Federal Urdu University of Arts, Science & Technology

Islamabad Pakistan

Mar 2014 - Mar 2018

## CERTIFICATIONS

- Masterclass Software Testing with Jira & Agile -Be a QA Lead
- Webservices API Testing with Postman - Complete Guide
- Jira Project Management
- Selenium WebDriver with Java - Basics to Advanced Frameworks
- Learn JMETER from Scratch on Live Apps - Performance Testing
