RESUME OBJECTIVE

I'm Bunty Goswami, a BCA graduate from IGNOU, working as a developer since 2017. I specialize in Java Android development, creating native Android and iOS apps, and hybrid apps using React Native and Expo. I excel in optimizing app performance, troubleshooting, staying updated with industry trends, conducting code reviews, collaborating with UI/UX designers, and ensuring app compatibility and responsiveness across devices

EXPERIENCE

RAWCUBES INDIA PVT LTD

Sr. Mobile Application Developer   04/2021 to Current

- I developed four applications using Java for Android and React Native with Expo for Android and iOS platforms at Rawcube.
- My role involves developing and maintaining code for deployment on both platforms, handling updates for Android and iOS releases. I created apps like Raddiant Mobility Solution, CAV QV Code Validation, Idataops, and Compliance.
- I implemented features like live location tracking, native camera integration for video recording, real-time database with Firebase, offline support, and used Redux-Saga, CI/CD pipelines, unit testing, and maintained a high-level code structure. I lead a team in mobile app development, including code reviews and merging.

VYOSYS TECHNOLOGIES

Mobile Application Developer   03/2019 to 04/2021

- I developed Myskoolnet, a school management app using Android core Java.
- Later, I transitioned it to React Native for a single codebase supporting both iOS and Android.
- I integrated features like live quiz games and school competitions, collaborated across teams for new feature development, wrote clean Java code for iOS integration, and customized native iOS components.

AAFILOGIC INFOTECH PVT. LTD

Junior Software Developer   06/2018 to 03/2019

- I handled individual projects using Core Java for Android app development, responsible for development and deployment on both platforms.
- I integrated Firebase push notifications and managed real-time database using Firebase for a live quiz application.
