ABOUT ME

- Developer with **2,5 years of experience** in developing native apps for iOS and Android in Swift and Kotlin.
- I have experience working with clients from the USA.
- I'm a team-player, but I can also solve problems on my own.
- Learning quickly and adapting to new situations is something normal for me, I like challenges!
- I care about my own development, but also about achieving goals together.

SKILLS

HARD / TOOLS:

- **Android** - Kotlin | Java | Coroutines | Retrofit | Jetpack | AndroidStudio
- **iOS** - Swift | UIKit | SwiftUI | XCode
- Firebase SDK | Git | REST | JSON
- GraphQL | Apollo
- MVVM | MVC
- AzDo | Jira | App Center | Postman
- AppStoreConnect | Google Play Console

SOFT:

- Cooperation with clients
- Team management / leadership
- Mentoring

LANGUAGES:

- Polish - native
- English - B2/C1

WORK EXPERIENCE

Freeport Metrics Inc.

Mobile Developer (10/2022 - currently)

Native iOS & Android application (app for drivers):

- Stack: iOS - Swift, UIKit, Android - Kotlin, Firebase, GraphQL.
- Contact with the client- agreeing on requirements, demo presentation.
- Team coordination - delegation of tasks, decision-making.
- Estimation and implementation of new features (onboarding flow, main screens - dashboard, wallet, activity).

Other duties:

- Publishing applications in the AppStore and Google Play Store.
- Preparing pipelines on the App Center platform.
- Fixing bugs in the React Native project + team coordination.
- Preparing estimates for potential future clients.
- Conducting technical interviews in recruitment processes.

Deputy People Manager (04/2023 - currently)

- Mentoring of junior programmers.
- Taking care of the professional and personal development of juniors by jointly setting periodic tasks and goals.

Junior Software Developer (10/2021 - 09/2022)

Native iOS & Android application (platform for manga fans):

- Stack: iOS - Swift + UIKit, Android - Kotlin, GraphQL, Firebase.
- Implementation of new functionalities (login and profile screens, comment and like system).
- Bug fixing.
- Collaboration with the team (other developers, testers, designers).

Native iOS application (dating platform):

- Stack: iOS - Swift + UIKit, Firebase.
- Implementation of new functionalities (comments and likes system, tool for creating posts).
- Bug fixes.
- Collaboration with the team (other developers, testers, designers).

Software Developer Intern (07/2021 - 09/2021)

Web application (networking platform - foodtech):

- Stack: Ruby on Rails, Angular, MySQL.
- Implementation of new functionalities.
- Direct contact with the client - agreeing on functional requirements, presenting results, reporting work progress.

EDUCATION

Bachelor studies (10/2018 - 02/2022)

Military University of Technology in Warsaw

Specialization: IT Systems

Thesis topic: *Android application for inventory of goods in a warehouse using NFC technology.*

"I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation)"
