## PROFESSIONAL SUMMARY

- Overall **9 years 7 months** of experience in development of Mobile & WEB applications using JavaScript and TypeScript Technologies For react-native and react.js .
- Worked with **Codecube Technology**. from **June 2015 to Jan 2017 (1.6 Years)**
- Working with **Holostik India Ltd.** from **Jan 2017 to March 2019 (2.4 Years)**
- Working with **Qss Technosoft Pvt Ltd** . from **Sep 2019 to Aug (2020)**
- Working with **Stigasoft Pvt Ltd.** from **Aug 2020 to July (2021)**
- Working with **Coforge Ltd ( NIIT Technologies)** from **July 2021 to Feb-2023.**
- Working with **Enfec Solution** from **Mar 2023 to till date.**
- Hands-on experience inJava, android HttpURLConnection, Volley, Retrofit2.
- Knowledge of Eclipse tool & Android Studio for the development of Android Mobile Apps. • Hands-on experience Tomcat web servers in ODK in Ihat Mobile App .
- Cohesive team worker, having strong analytical, problem solving and interpersonal skills.
- Strong Knowledge of javascript typescript hook redux saga git like git add, git commit git push git pull git merge git multiple stashes git cherry push etc .

## Professional Skills

- Development using **Java/Kotlin Android on Windows/Linux platform.**
- Development using **Javascript typescript react-native and react.js apps.**
- Strong hold on **Rest Web Service using Volley Retrofit2**
- Strong hold on **React.js React native typescript react-query next.js jenkins docker github etc. • Strong hold Eclipse IDE Android Studio.**
- Strong hold in **SQLite**, and Strong Database Concepts.
- **13+ React Native App is Developed (6 years of experience in React Native)**
- **5+ React.js web App is Developed (2 years of experience in React.js)**
- **6 years of experience in Java-Script typescript redux saga hooks**
- **1+ Angular of experience in Java-Script typescript signal**
- **Stack Overflow Reputation:- 11,163**
- **ReactNative, Typescript, Javascript, git, HTML, CSS**

## Skill Summary

**Programming Language:** Java, Kotlin Android, Basis Knowledge of iOS Swift4)

**Operating Systems :** Linux (16.04 LTS), Windows 10

**RDBMS:** MYSQL, SQLite, Realm, Room

**Tools:** Eclipse, SVN, Git,

**Technology:** Java ,React-Native

## PROJECTS:

➤ Project#1

**Motif (To find properties) :- Java Android**

**Role:** Software Developer.

**Description:** This app provides corporate and broker based login in which corporate can see property for rent and also brokers can see new requirements. Also they can send and receive messages.

**Responsibility:** Complete designing phase, Complete development phase

**Environment:** Eclipse, Android Studio

**TeamSize:** 2 people

**Play Store**

Link <https://play.google.com/store/apps/details?id=com.codecube.motif>

➤ **Project#2**

**Click Bima (java-android)**

**Role:** Software Developer.

**Description:** This app provides Agent And Employee based login and employee can marked attendance or can check daily basis new and Renewal policy sold status. Also user can send and receive messages (chat)

➤ **Project#3**

**ODK (Open Data Kit) (java-android)**

**Role:** Software Developer.

**Description:** This app uses ODK platform to do survey for public health. Mainly used by NGO. Data synchronization facility also available where Internet connection is not good.

**Responsibility:** Bulk data report generation by using MySQL, Form generation by using Excel.

**TeamSize:** 6 people

**Play Store Link** <https://play.google.com/store/apps/details?id=com.odk.communityapp>

➤ **Project#4**

**AirBucks (React-native)**

**Role:** Senior Software Developer.

**Description:** AirBucks is a platform from where anyone can earn free data/time by downloading application, watching videos and taking surveys.

**Play Store Link** <https://play.google.com/store/apps/details?id=com.codecube.airbucks>

➤ **Project #5**

**StudentAPP (React-native)**

**Role:** Senior Software Developer.

**Description:** Schools App is the official community at many schools Now get the required updates from the schools right on your Mobile using School Connect. Features - Alerts- Receive an instant Notifications on your Mobile Alerts- Receive an instant absent message in parents

➤ **Project #6**

**RFL (React-native)**

**Role:** Software Developer

**Description:** RFL (Risk Free Life) makes easy insurance An one stop solution for all insurance needs.RFLis insurance based application like Term life insurance, Health, Motors,Travel,Child,Retirement Etc.
