Anjan Paudel

Software Developer

"I'm an experienced Laravel developer with over 2 years of expertise. I specialize in creating robust web applications, focusing on high-quality code and outstanding user experiences. My skills include Eloquent ORM, Blade templating, and artisan CLI, as well as PHP, MySQL, HTML, CSS, and JavaScript. I stay updated on the latest web development trends and am committed to exceeding client expectations."

EXPERIENCE

Laravel Developer

Studiomatrix / Kathmandu / May, 2022 - Present

- Tested programs and databases to identify issues and make necessary modifications.
- Designed, developed, and implemented software applications for website based on analyzed requirements and understanding of industry technical standards.
- Collaborated on stages of systems development lifecycle from requirement gathering to production releases.
- Updated old code bases to modern development standards, improving functionality.

Angular Junior Developer

Studiomatrix / Kathmandu / March, 2022 - July, 2023

- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Revised, modularized and updated old code bases to modern development standards, reducing operating costs, and improving functionality.

Data Analyst

IdenTvNepal / Kathmandu / April, 2020 - May, 2022

- Produced monthly reports using advanced Excel spreadsheet functions.
- Created various Excel documents to assist with pulling metrics data and presenting information to stakeholders for concise explanations of best placement for needed resources.
- Designed and implemented tools to support strategic value chain optimization initiatives.
