EXPERIENCE

MERN IT Solutions — Gulberg Greens, Islamabad
Front End Developer — *Aug 2021 - Present*

  ○ **African Health Care**: Transformed the African Health Care project by building a a comprehensive boilerplate setup and creating essential features, resulting in a user-friendly medical app.
  ○ **Occy.com**: Led a successful overhaul of this product with a revamped strategy, meeting critical deadlines. Redefined the user experience and functionality in the relaunched platform. Introduced a robust calendar feature, syncing events with Outlook and Google calendars for enhanced engagement and organization. Managed global interviews, synchronized across GMT timezones, and seamlessly designed/integrated public pages for streamlined navigation.
  ○ **SRO**: Led the development of Smart Recruit Online's Onboarding App using Angular and AngularJS, creating a dynamic platform with advanced tools, like Job Advert Generator and CV Parsing, for a cohesive, user-friendly experience enhancing user functionality.
  ○ **Internal Support Team**: Proficiently replicated reported software issues to pinpoint accurate root causes, used controlled test environments to isolate variables, and identified contributing factors. Proficient in code analysis, error tracing, and using debugging tools for efficient resolution of complex software defects.

Histone Solutions — 6th Road, Rawalpindi
Front End Developer — *Feb 2021 - Aug 2021*

  ○ **Internal Projects**: Executed in-house projects with expertise in Angular and React.js

F10 Software Solutions — (Remote) UK
Front End Developer — *Sep 2020 - Feb 2021*

  ○ **Internal Projects**: Collaborated closely with UX/UI designers, backend developers, and other stakeholders to integrate front-end interfaces seamlessly with backend systems, fostering cohesive cross-functional teamwork.

Fiverr
