Date of Birth: 28-03-1998 | **Nationality:** Indian

PERSONAL STATEMENT

- Dynamic Software Developer with over 4 years of comprehensive experience in the tech industry, specializing in web and mobile applications across various domains, with a deep-rooted expertise in React technology and a strong foundation in Android platforms
- Proven proficiency in advanced coding techniques, including Encryption and decryption methods, with a significant track record in the Digital Healthcare sector, showcasing an aptitude for creating secure and reliable applications
- Demonstrated excellence in team collaboration and project management, adept at leading cross-functional teams and executing complex projects precisely, notably in front-end development and user interface design
- Exceptional problem-solving capabilities are evidenced by a consistent history of swiftly identifying, troubleshooting, and resolving technical issues, ensuring robust system functionality and minimal downtime
- Committed to continuous learning and skill enhancement, as validated by a comprehensive set of certifications in React, Web Development, and programming languages, underscoring a dedication to staying at the forefront of technology trends

WORK EXPERIENCE

Jan 2023 - Jan 2024

React Native Developer | FocusBear, Australia

- Created and sustained unit tests, confirming code quality and dependability
- Developed UI components and integrated APIs into existing project frameworks
- Collaborated within cross-functional teams, improving project efficiency and facilitating knowledge exchange
- Created and maintained Microsoft azure CICD for continuous integration and continuous deployment.

Oct 2021 - Jan 2023

Senior System Engineer | Infosys Ltd, Chandigarh

- Spearheaded system development and ongoing maintenance initiatives for Roland Garros and Australian Open projects, enhancing operational efficiency and system robustness
- Authored in-depth system documentation to streamline operational processes, facilitate troubleshooting, and support optimal functionality
- Excelled in promptly identifying and rectifying complex technical issues, minimizing downtime, and maintaining system integrity

Feb 2020 - Sep 2021

Software Developer | Techbode Solutions Pvt Ltd, Noida

- Conducted code maintenance and troubleshooting, resolving issues to ensure optimal functionality
- Utilized Android Studio with Java and XML for UI implementation, enhancing application design and usability
- Created and sustained unit tests, confirming code quality and dependability
- Developed UI components and integrated APIs into existing project frameworks
- Collaborated within cross-functional teams, improving project efficiency and facilitating knowledge exchange

PROJECT EXPERIENCE

Role: React Native Developer

Technologies Used: React Native, Javascript, Typescript, Redux, React-query, Context API, Rest APIs, Third party api like Firebase, Agora, Google maps, web3.

Platforms: iOS & Android

#1 Hushkey | Company: Flying Souls | Team Size: 1

- Developed a Web3-based encrypted application aiding users in secure password storage, featuring UI implementation and Web3 upload API integration for robust data encryption and decryption
- Managed the entire app development lifecycle, resulting in a successful launch on both the App Store and Play Store

#2 Hummcare | Company: Banao Technologies | Team Size: 2

- Responsible for API integration and implementing Agora for video calling features

#3 Kanpid | Company: Isynbus technology | Team size: 1

- Spearheaded the project development, an extensive online platform for lost and found properties, integrating critical notification features and conducting thorough bug fixes, enhancing overall code quality

#4 BurgerLane | Company: Isynbus technology | Team Size: 1

- Led the development of "BurgerLane," an online food delivery application, with responsibilities including Google Maps implementation, UI design, and API integration

#5 Worldref | Company: Worldref | Team Size: 5

- Worldref is a tech enabled, cross border industrial sourcing marketplace. In the application my role is to build application from scratch which includes creation of UI and integrating of api and then the deployment.

#6 Ung Arena Vestby | Company: Searuza group |Team Size: 2

- Developed "Ung Arena Vestby," a platform for youth engagement and anonymous communication, executing UI design and chat feature API integrations

EDUCATION

Nov 2020

- **Bachelor of Technology in Computer Science** from ITS Engineering College

CERTIFICATIONS

- Modern React: The Complete Guide (including Hooks, React router, & redux) | Academind
- React Native: The Practical Guide | Udemy
- Complete Web Development | Udemy
- Java Programming: Arrays, Lists, and Structured Data | Coursera
- GIT & GITHUB: Behind the Scenes | Udemy
- Introduction to Programming in C | NPTEL

KEY SKILLS

Software Developer | Web Development | React Technology | Software Applications | Android Platforms | Encrypted Application | Encryption & Decryption | Digital Healthcare | Bug Fixing | React Native | Javascript | React Js | Next js | Typescript | Redux | Html | CSS | Scss | Tailwind | Context API | Expo | Jira | Rest API | Github | Front-end Development | State Management | Mobile Application Development | Version Control | Quality Assurance | User Interface Design | Project Collaboration| Team Management | Interpersonal Skills | Microsoft Azure | Android SKDs | CICD | DevOps
