- ❑ **Languages** - Javascript, Typescript, Dart, GraphQL, MySQL, PostgreSQL, HTML, CSS, JSON
- ❑ **Frameworks** - React Native, Expo, ReactJS, Redux, NextJs, NodeJs, Express-Js, Flutter, Firebase, Material UI, Jest
- ❑ **Tools** - AWS, Postman, Lambda function, Heroku, Hasura, Git, Bitbucket, Jira, Slack, Figma
- ❑ **Skills** - Front-End, Back-End, Unit Testing, Micro Services, CI/CD Pipeline, Blockchain, Algorand

Experience

Quokka Labs LLP

Software Engineer L1

Aug 2023 - Present

Noida, Uttar Pradesh

- ❖ Optimized legacy code implementations to accelerate application performance, achieving a 40% reduction in load times.
- ❖ Conducted rigorous code reviews to ensure high quality and consistency.
- ❖ Assisted in establishing test automation frameworks, cutting manual testing efforts by 50%.
- ❖ Implemented unit, integration, and end-to-end testing strategies to proactively detect and resolve issues before deployment.
- ❖ Mentored junior developers in best practices for coding, testing, and documentation, contributing to overall team skill enhancement.
- ❖ Collaborated with cross-functional teams to align development efforts with business objectives and deliver solutions that meet user needs effectively.

Singsys Software Services Pvt Ltd

Software Engineer

Sep 2020 - Aug 2023

Lucknow, Uttar Pradesh

- ❖ Architected and developed scalable applications using React Native, with a focus on distributed architecture, achieving low latency and high throughput.
- ❖ Deployed admin panels for mobile applications, streamlining backend service management.
- ❖ Automated software delivery through integrated CI/CD pipelines, ensuring faster and more reliable releases.
- ❖ Implemented robust unit, integration, and end-to-end testing strategies to proactively identify and resolve issues before deployment.
- ❖ Contributed to establishing test automation frameworks, reducing manual testing efforts by 50%.

Education

Babasaheb Bhimrao Ambedkar University (A Central University) Lucknow

2017-2020

- ❑ MCA with 8.25 CGPA

Dr. Ram Manohar Lohia Avadh University, Ayodhya

2013-2016

- ❑ BCA with 71.33%

❖ Collate

- ❖ A service booking app for various needs such as laundry, telecommunications, electricity, air conditioning, handyman services, and cleaning.
- ❖ Single app for both customers and merchants.
- ❖ Two types of bookings available: quick and preferred.
- ❖ Subscription options offered: weekly, monthly, and yearly

❖ Suntec+ Eats

- ❖ Separate apps for food delivery: one for customers and one for merchants.
- ❖ Features included self-collection and merchant delivery options.
- ❖ Developed in response to the COVID pandemic.
- ❖ Removed from the App Store and Play Store after the pandemic.

❖ JaSiri Wallet

- ❖ JASIRI Wallet offers a non-custodial blockchain mobile wallet, meticulously crafted with comprehensive and versatile features, empowering users to unleash their full potential within the Algorand Blockchain Ecosystem.
- ❖ It serves as the primary tool for leveraging the JASIRI Protocol, a blockchain innovation facilitating the tokenization of purchases and unlocking of capital on Algorand.
- ❖ The wallet incorporates offline transaction capabilities tailored for specific jurisdictions, along with seamless liquidity access.

❖ SWI (Singapore Watch Insider)

- ❖ Singapore Watch-Insider serves the platform for luxury watches lovers.
- ❖ You can buy or sell your luxury watches.
- ❖ Engage directly with sellers to negotiate bids. Complete your purchase upon agreement.

❖ OT Tracking

- ❖ This React Native application tracks employees' live locations and overtime automatically.
- ❖ It includes features like geo-fence notifications upon entry or exit.
- ❖ It operates as a private application exclusively for client use, not distributed through public app stores.

❖ Starfarm

- ❖ StarFarm offers an innovative online music platform tailored for streamers and artists.
- ❖ Offering high-quality music accessible seamlessly via web and mobile devices.
- ❖ Discover and support artists while benefiting from full transaction transparency and immutability.

❖ Shivam Yoga Studio

- ❖ This application offers live yoga classes and provides video content.
- ❖ Subscribe to live classes or purchase monthly plans.
- ❖ Browse and buy yoga-kit products directly through the app.

❖ Other Applications

- ❖ **Shivam Yoga** - I have created an Admin panel with react js.
- ❖ **TripTrap** - I have created the base architecture, designed all the UI screens, and integrated with Socket.io.
- ❖ **IGym and IGym Trainer** - I have updated the latest Flutter packages and published the project.
- ❖ **aiTriage** - I have created an Admin panel and web services with Nx workspace
- ❖ **WayWay (SixTnc)** - I have created an admin panel and web services, and implemented Socket.io for real-time updates.
