## Education

---

2015 - 2020 - **B. Tech: Computer Science at MITE, Mangalore**

2014 - 2015 - **10+2 (PCM): Delhi Public School, Jammu**

## Work Experience

---

**Software Engineer, Silver Touch Technologies Pvt. Ltd.**

March 2022 - Present

My experience spans individual contributions as a lead developer, spearheading critical website creation, and collaborative efforts within teams to achieve project objectives. This showcases my commitment to excellence and ability to deliver high-quality results.

- Maintained a substantial 12% share of business operations for NCDC, MEA (GISP), and DRDO during FY 2022-2023.
- Played a pivotal role in testing and finalizing projects for IBBI, MoPNG, and Rajeev.in.
- Demonstrated leadership by mentoring and onboarding 3 new team members, ensuring seamless integration into client-focused tasks.
- As lead developer, implemented early features, optimized databases, crafted visually appealing views, and integrated APIs for GISP and DoR capstone websites; achieved exceptional user engagement and increased performance metrics.
- Collaborated on NCDC and DRDO projects, contributing valuable insights and technical expertise.
- Streamlined training initiatives and facilitated comprehensive documentation, increasing team efficiency by 20% and reducing project errors by 15%.

**PHP Developer, Helios Tech Lab Pvt. Ltd.**

March 2021 – June 2021

- Develop and maintain server-side web applications with efficient, secure PHP code.
- Collaborate on front-end integration, troubleshoot and upgrade systems, manage databases, and stay updated on web trends within a team environment.
- Ensure application reliability through testing and comprehensive documentation of code and processes.
