Karamat Ghous

Full Stack Engineer(React Native | React Js | Firebase)
Jhelum

Summary

Specialising in Mobile App Development.

Dynamic and creative software developer with about 2 years of experience in developing innovative programs that expedite the efficiency and effectiveness of organisational success.

Skilled developer who has the proven ability to build an application from scratch to the presentation level.

Team worker and problem-solver to develop software that is customised to meet a company's organisational needs, highlight their core competencies, and further their success.

I have executed projects for different clients from various regions like USA, INDIA.

WHY CHOOSE ME OVER OTHERS?

Over-Delivering: My focus is on GIVING more than what clients expect to RECEIVE.

Responsiveness: Being extremely responsive and keeping all lines of communication readily open with my Clients.

My Skills Includes

Hybrid Mobile Development: React Native

Web: React Js

Languages: Javascript | React Native | React Js | Redux | Redux Thunk

Social Integration: Facebook, Twitter, Youtube, Instagram

Editors: Android Studio | Xcode | Visual Studio Code

Version Controls: Github | bitBucket | Gitlab
