## WORK EXPERIENCE

### Associate Software Engineer

TechAhead Pvt. Ltd

10/2021 - Present

Noida, Uttar Pradesh

#### Achievements and Responsibilities

- Collaborated across teams to create user-friendly mobile apps for iOS and Android with React Native.
- Guaranteed optimal app performance and long-term maintainability by crafting efficient, modular code.
- Vital in bug identification and resolution through close QA collaboration, delivering stable software.
- Enhanced application performance significantly by reducing loading times and improving responsiveness.

## PROJECTS

### Marshmallo - No Catfish Dating

- As a React Native developer, I created Marshmallo, a Dating App with rigorous member verification. It promotes genuine connections by eliminating catfishing, ensuring a secure and honest online dating experience.

### CatchAll: Find Recommendations

- Developed CatchAll, a platform that lets you share trusted recommendations with friends and family for different services and businesses. Built features that make it easy to share and organise recommendations, making it simpler for people to connect and find what they need.

### Cysterhood:

- Cysterhood is a platform where users can track their PCOS program progress, use workout and meal plans, connect with a community, read success stories, and join events and live workouts.

### MD - Misk Al Dar

- Developed two apps for Misk Al Dar, a leading Kuwaiti general contracting firm with an established user base of approximately 50,000 individuals. As the React Native developer, I created separate applications for service consumers and providers, optimizing user engagement and satisfaction within the construction service industry.

## EDUCATION

### Masters of Computer Application (MCA)

Vivekananda Institute Of Professional Studies

08/2018 - 08/2021
