## OBJECTIVE

---

Web Developer with nearly 3 years of experience in creating dynamic and responsive web applications. Skilled in leveraging React.js, Redux, and JavaScript to build seamless user experiences. Proficient in front-end technologies (HTML, CSS, Bootstrap, Material-UI) and back-end development (PHP, MySQL), ensuring efficient and scalable solutions. Effective team player with cross-functional teams, consistently delivering project success. Committed to staying updated with industry trends and enhancing technical skills to contribute to innovative web development projects.

## EXPERIENCE

---

### Software Engineer

02/2022 to Present

Ixigo [Abhibus]

Hyderabad, INDIA

- Collaborated effectively with clients and cross-functional teams to communicate project statuses and proposals, ensuring alignment and timely updates for projects involving up to 5 stakeholders.
- Designed and implemented a responsive UI for a Bus services application, focusing on user-friendly using React.js, Redux, JavaScript, HTML5 and CSS.
- Leveraged analytics to optimize a web application, resulting in a 20% improvement in load times and a 15% increase in user engagement through data-driven decisions.
- Conducted thorough API inspections and seamlessly integrated multiple APIs into React.js.
- Applied frontend programming best practices resulting in a 30% reduction in page load times and a 25% increase in overall application performance.
- Demonstrated expertise in calling API back-ends, including REST and GraphQL endpoints.

### Software Developer (Intern)

07/2021 – 01/2022

Infochord Technologies Pvt. Ltd.

Hyderabad, INDIA

- Developed and maintained dynamic web applications using PHP and MySQL.
- Created a comprehensive NEWS portal website with admin, reporter, and user functionalities.
- Designed and implemented server-side logic integration with front-end elements using HTML, CSS, and JavaScript.
- Designed and optimized database schemas, executed queries, and managed database connections.
- Created a Full Stack Application for request tracking, demonstrating end-to-end development expertise.
