MANOJ R MAYYA

MOBILE APP DEVELOPER

+91-9482508343   [linkedin/Manoj_R_Mayya](#)   manoj.r.mayya20@gmail.com

PROFESSIONAL SUMMARY

Experienced Mobile App Developer with a proven track record of 4+ years, proficient in Android development and skilled in leveraging React Native for cross-platform applications. Known for creating engaging user experiences and transforming concepts into high-performance applications. Passionate about innovation and eager to tackle new challenges in delivering cutting-edge mobile solutions.

PROFESSIONAL EXPERIENCE

Company: Wipro Limited   July 2019 - Current
Project Name: MySpace
Role: React Native Developer

- Spearheaded the pioneering React Native initiative within MySpace, transforming employee seating administration into a dynamic and intuitive experience.
- Crafted a visually captivating and blazing-fast mobile application using HTML, JavaScript, and CSS, setting new benchmarks for responsiveness and aesthetic appeal, driving unparalleled user engagement.
- Seamlessly integrated cutting-edge third-party APIs, including Microsoft and Spazio, elevating the application to new heights with extended functionalities and seamless user experiences.
- Recognized with esteemed awards and accolades for outstanding contributions, embodying dedication, innovation, and a relentless pursuit of excellence that surpassed project expectations.
- Hosted the application on both the App Store and Google Play Store, reaching a wide audience of users.

Project Name: Adani PYMS
Role: Senior Android Developer

- Engineered a robust Android native application tailored for Adani, optimizing yard operations within coal yards with precision, leveraging the latest in Android technology.
- Implemented cutting-edge location and geofencing features, revolutionizing truck tracking accuracy within port premises in real-time, ensuring seamless operations and maximum throughput.
- Elevated user engagement through an intuitive and visually captivating UI design, guaranteeing effortless navigation and enhancing overall user satisfaction, setting a new industry standard for usability.
- Led the seamless deployment of the Adani Port Yard Management System, exceeding Adani's exacting standards and delivering outcomes that surpassed initial expectations, cementing its status as a pivotal customer project.

Project Name: Back to Office
Role: Android Developer

- Developed Back to Office, a mobile solution simplifying back-to-office transitions with easy health assessments, scheduling, and communication. Utilized advanced tech for hassle-free processes and social distancing adherence.
- Implemented modules for health assessment, thermal screening, QR access checks, and real-time social distancing monitoring. System manages workforce wellness, allowing only healthy individuals into the facility.
- Employee app features self-registration, health assessment, travel declaration, desk booking, and transportation arrangements. Dashboard provides QR codes, location tracking, reporting, and access to medical facilities, FAQs, news, and emergency helplines.
- Led development and deployment, integrating LDAP for authentication with QR scanning and thermal screening.

- Hosted the application on both Google Play Store and Microsoft Intune, ensuring accessibility for users across platforms.

Other Apps hosted on Google Play store:
- ELCITA Citizen App: [Elcita Citizen](#)
- ABG My Smart Workplace: [ABG My Smart Workplace](#)
- Back to Office : [Back to Office](#)

KEY SKILLS

✓ Android Development	✓ Java	✓ Kotlin
✓ React Native	✓ HTML	✓ CSS
✓ JavaScript	✓ Agile	✓ RESTful APIs
✓ GIT	✓ Azure DevOps	✓ Communication and Interpersonal Skills
