MODULES WORKED:

- **Adaptio HRM** <http://103.50.160.148/hrm> - (Username: admin@gmail.com | Password : 123)
 - In this project has been worked in Masters, Customer Manager, Leave Manager and User Manager.
 - Here I have used the material table for the list of data. In this used card for the dashboard screen.
 - Excel services has used for export the data from the table of records.
 - Bulk upload option of employee details we used in this project angular 6 version and MySQL database and backend php laravel Rest API.
 - Indication of success or error failure message sweet alerts and some modal services for pop-up used user friendly.
 - **Chit Funds** <http://bestgroups.in/bestchit> - (Username: superadmin@best.com | Password: 123)
 - In this project I will worked in all modules.
 - Here instead of data table I have been used Ag-grid table for performance based.
 - Excel services has used for export the data from the table of records and also used Js pdf for the conversion to pdf.
 - Multiple select option is also used, in this both data table and Ag-grid table are used to list out the data of records.
 - In this we have used cards for the dashboard. For success or error failure message sweet alerts and some of modal services for pop-up used.
-
