	Sex Male   Date of birth 03/07/1983   Nationality Egyptian	

SUMMARY	I have a strong understanding of the localization process, including translation, localization testing, and cultural adaptation. In my previous role as a localization specialist at two leading localization companies in Egypt, I was responsible for localizing software, websites, manuals, and games into Arabic. I have experience using CAT tools such as SDL Trados and MemoQ, and much more. Therefore, I am comfortable working with a variety of file formats. I have a deep understanding of gaming culture and am familiar with the nuances and terminology used in the industry. This allows me to accurately and effectively localize almost any content for a global audience.
