Additional Skills

- React Native
- JavaScript
- Node.js
- Git
- Android
- Redux
- Redux Saga
- Java
- Web Development
- ReactJS
- TypeScript
- Firebase
- Mobile Development
- Redux Thunk
- Flux
- Redux Apollo
- React-Native-Router-Flux
- RESTful APIs
- Android Studio
- Analytical
- Team player
- Team Management
- Communication skills
- Problem-solving skills
- Accountability
- Unit testing

Professional Summary

Skilled React Native Developer with 4+ years of experience in creating mobile applications utilizing React Native. Proven success developing robust and user-friendly apps, optimizing performance, and managing the entire development cycle from concept to delivery. Experienced in both Android and iOS platforms, as well as JavaScript libraries like Redux and NodeJS. Passionate about delivering high-quality results for clients on time every time.

Work Experience

05/2023 - Current

Witbit Ltd

Senior React Native Developer | Team Lead

- Mentored interns and junior software developers through training, design reviews and code reviews.
- Researched alternative solutions to problem spaces to decide best technical approaches.
- Completed continuous project and team reviews to maintain optimal productivity and quality of work.
- Identified and communicated potential risks and roadblocks to properly execute projects.
- Conducted full lifecycle software development from planning to deployment and maintenance.
- Integrated innovative development techniques to shorten turnaround times and spur customer loyalty.
- Analyzed and tested applications prior to launch to remedy last minute issues.
- Implemented quality and on-time technical solutions to align with business requirements.

12/2021 - 04/2022

Witbit Ltd

React Native Developer

- Developed and maintained React Native components, screens, and features for the mobile app using TDD practices
- Collaborated with other developers to implement new features in a way that is consistent with existing codebase conventions
- Provided technical leadership by mentoring junior engineers on best practices related to software development and engineering processes
- Participated in design discussions regarding application architecture, feature implementation, or any other relevant topic as required
- Provided technical expertise in the process of application development
- Built mobile apps for clients in diverse industries
- Designed, developed, tested, and deployed mobile applications following client requirements
- Made recommendations regarding system expansions and alternative approaches to app development.
- Tackled development tasks based on system requirements and documented approaches.
- Participated in code review meetings, providing input on bugs, inefficiencies and potential solutions to emergent issues.

09/2019 - 11/2021

Digit Solutions (Private) Limited

React Native Developer

- Managing large and complex projects or multiple components with

smooth implementation and testing of application

- Cooperating & communicating with other team members for efficient management works
- Delivering and implementing the project as per scheduled milestones
- Designing, Developing, Implementation and troubleshooting of applications
- Providing suggestions to manage and enhance the work culture of the Company
- Developed Date Time Picker using Object Oriented JavaScript extensively
- Designed and developed base classes, framework classes and reusable components
- Involved in Understanding functional specifications and developing creative solutions to meet business requirements
- Highly Curious about new front-end development technologies and thoroughly mastering them with a keen awareness of new industry developments and the evolution of programming solutions
- Worked closely with the project management and marketing team to completely define specifications to help ensure project acceptance.

04/2018 - 08/2019

Balawal IT House

React Native Developer

- Developed front-end user interface using React Native and JavaScript for iOS and Android mobile applications.
- Successfully implemented features such as a camera module, push notifications, and a social media login.
- Collaborated with designers on UI/UX design decisions and created mockups as needed
- Collaborated with other developers to implement new features in a way that is consistent with existing codebase conventions.

03/2017 - 01/2018

Universal Service Fund, Ministry of IT & Telecom Pakistan

Software Developer

- Developed, designed, laid out and produced variety of technical illustrations for brochures, banners and signs.
- Selected colors and themes while adding functionality to create new designs.
- Worked with customers to present mockups and collect information for adjustments.

Education

2014 - 2019

University of Engineering and Technology (UET), Taxila

Bachelors (Hons) in Computer Science

Throughout the program, I received rigorous training in fundamental computer science concepts, including programming languages, algorithms, data structures, computer networks, databases, software engineering, and artificial intelligence. The curriculum was carefully designed to provide a balance between theoretical knowledge and practical skills.
