Mission Viejo, 92692 CA

Enthusiastic Junior Software Developer and Cybersecurity student that eager to join a Tech Company to enhance my knowledge and bring value to the team. I am determined to learn and contribute to the company's innovative projects, while continuously enhancing my skills in the dynamic IT landscape.

PROFESSIONAL EXPERIENCE

Full Stack Developer
Startup | 2023

- As a Full-Stack Developer at a startup, I gained expertise in Flutter mobile app development and Django backend, acquiring proficiency in full-stack development and an entrepreneurial mindset. I honed my skills in API integration, database management, and mobile app performance optimization. Working in an agile environment, I collaborated with AI models for problem-solving and continuous integration, delivering innovative solutions and fostering an entrepreneurial mindset in the fast-paced startup ecosystem.

Scrum Master
School Project | 2022

- Consistently worked to identify project risks, initiate risk mitigation and implement risk reduction action plans.
- Led daily Scrum stand-ups and Agile development sprint planning meetings for multiple, concurrent projects.
- Worked with project owners and end users to prioritize feature development and enhancements based on critical paths and business needs.
- Trained and mentored team members on the best and most effective ways to use Scrum processes to improve efficiency and reduce production times.
- Documented new features and strategies as well as user stories and criteria for acceptance.
- Defined workflows and processes in the fast-paced, Agile environment and distributed models through whiteboarding and mind-mapping.

EDUCATION

Saddleback College
Pursuing Associate Degree in Computer Science and Cyber Security

SKILLS & PROFICIENCIES

- Collaborative mindset
