## EXPERIENCE

### Full Stack Developer

#### Nano Infomatrix LLP

Feb 2022 - Oct 2023 Jaipur, Rajasthan

- Managed the Back End Development Team to deliver projects on time.
- Designed and developed a user-friendly web-based file sharing platform in PHP, HTML, CSS, and JavaScript.
- Optimized platform performance for swift file uploads and downloads, enhancing user satisfaction and efficiency.
- Ensured cross-browser compatibility for consistent user experiences across different browsers.
- Used React.js for building dynamic user interfaces and to make website more interactive.
- Conducted extensive testing and optimization iterations to achieve optimal rendering and functionality.

### Front-End Developer(Intern)

#### Nano Infomatrix LLP

July 2021 - Jan 2022 Jaipur, Rajasthan

- Collaborated with senior front-end developers to create dynamic web applications with intuitive interfaces.
- Translated design ideas into user-friendly dashboards and responsive layouts using HTML, CSS, JavaScript, and React.js.
- Implemented UI/UX best practices to ensure accessibility and usability across various devices and screen sizes.
- Participated in design reviews and user testing sessions, iterating on interface designs based on feedback.

## EDUCATION

### Computer Science Engineering

#### Swami Keshvanand Institute of Technology

2017 - 2021 Jaipur, Rajasthan

### Higher Secondary - 88%

#### RPS Public School

2017 Rewari, Haryana

## SKILLS

- PHP | CodeIgniter | NodeJS
- JavaScript | ReactJS
- MYSQL | MongoDB
- CSS | Bootstrap
- HTML
- Postman | Git | Github

## PROJECTS

### Network File Share

- Created a file sharing website using PHP, HTML, CSS, and JavaScript to enable efficient and secure file exchange.
- Used optimization methods to make the platform faster, allowing for quick file transfers.
- Used techniques like asynchronous file handling and data compression to make uploading and downloading files faster, reducing delays and making the website more responsive.
- Ensured seamless cross-browser compatibility to guarantee a consistent user experience across various web browsers, including Chrome, Firefox, Safari, and Edge.

### Dashboard Project

- Led the team to create easy-to-use interfaces with dynamic charts and graphs using React.js.
- Integrated different data sources and tools to show comprehensive views of performance, helping decision-makers understand system performance and user engagement.
- Maintained and improved the dashboard by adding new features based on user feedback and business needs.
- Worked closely with different teams to understand needs, prioritize tasks, and stay on track with project goals and deadlines.
