SUMMARY

Experienced Front End Developer with 3 years of expertise in React and React Native. Skilled in UI optimization, dynamic interface building and maintaining high-quality code. Proficient in modern web technologies. Thrives in fast-paced environments, eager to tackle challenging projects. Ready to drive innovation and excellence in front end development through my passion for React.

EXPERIENCE

SDE-1

Innostax Software Labs

📅 12/2021 - Present

- Proficiently developed cross-platform web and mobile apps leveraging React Native's and React performant UI components and state management features, including efficient navigation libraries and asynchronous data fetching.
- Enhanced UI performance by 60% through bottleneck identification and leveraging technologies like Context API and React Hooks, optimizing code reusability and efficiency.
- Proficient in Figma for UI design, allowing for efficient creation and customization of UI components and layouts.
- Integrated Firebase Single Sign-Ons (SSOs) for seamless authentication in mobile applications and integrated analytics tools like Amplitude for monitoring ROI and user engagement metrics.
- Integrated dynamic links and developed corresponding logic for their handling within the application, improving navigation and user experience.
- Designed comprehensive UI for Onboarding Flow and Logistics Flow, adhering to Agile sprint methodologies and regional requirements.
- Enhanced search functionality with list virtualization and other user retention strategies, contributing to improved user satisfaction and engagement.
- Optimized application performance through various techniques, including code refactoring, data optimization, HOC and performance profiling.
- Handled administrative tasks such as managing user permissions and configurations within the application's admin panel.
- Created a React Native app inspired by MakeMyTrip, crafting UI elements and functionalities from scratch without design tools.

Associate Software Developer

Innostax Software Labs

📅 07/2021 - 12/2021

- Led development of a cross-platform application enabling remote configuration and installation of hardware devices.
- Leveraged React Native Desktop to create tailored components for Windows and macOS platforms, ensuring seamless user experience.
- Engineered FlatList component for efficient presentation of bulk data, resolving performance bottlenecks.
- Addressed excessive log generation challenge, optimizing application performance and user experience.
- Expertly handled various frontend tasks, including UI/UX design, state management with Redux and implemented UI animations for enhanced user interactions and aesthetics.

ACHIEVEMENTS

🏆 **Achieved the "Employee of the Month" recognition.**

💎 **Recognized for Exceptional Client Service**

SKILLS

React	React Native	JavaScript
TypeScript	React Hooks	Redux
Tailwind CSS	HTML/CSS	Xcode
Android Studio	Git	

EDUCATION

Bachelor's degree in Information Technology

GNDEC, Ludhiana

📅 2017 - 2021 📍 Ludhiana, Punjab

CGPA
7.91 / 10

Senior Secondary

BCM SR SEC School

📅 2015 - 2017 📍 Ludhiana, Punjab

Percentage
76 / 100

STRENGTHS

⚡ **Adaptability**
Quickly adapted to the sophisticated React ecosystem, contributing to major projects.

🚩 **Collaborative**
Collaborated with cross-functional teams to develop and deliver high-quality products, translating business requirements into technical specifications to align development with organizational goals.

🏆 **Dedicated Learner**
Consistently kept up-to-date with the latest technologies, Ensuring code quality and accuracy through rigorous testing and review processes.
