

# PRAVEEN SINGH

Noida | +91-8668934765 | praveen.singh2907@gmail.com | linkedin.com/in/praveens2

With 3 years of expertise in frontend engineering, specializing in React Native, React JS complemented by proficiency in AWS cloud, I drive impactful solutions for team success.

## WORK EXPERIENCE

---

### React Native Engineer

Aug 2023 - Present

Gojoko Technologies

Noida, India

- **Credit Card Application Development:** Working on a credit card application for a UK-based company, integrating third-party services such as VISA, EpisodeSix, and FormPipe to enhance functionality and user experience.
- **React Native 0.74 Migration:** Successfully migrated the application from React Native 0.71 to 0.74, enabling the new architecture and transitioning bridge modules to bridgeless mode. Improved performance, streamlined module interactions, and utilized the latest features for enhanced stability and user experience.
- **GraphQL and Java OpenAPI Implementation:** Implemented GraphQL with Java OpenAPI microservices, enhancing app performance through a single GraphQL endpoint. Created schemas and mutations for efficient data retrieval. Leveraged GraphQL features such as type safety, lazy queries with caching to reduce load, real-time updates, and reduced over-fetching, while maintaining robust and scalable microservices architecture.
- **Automated App Release with Fastlane and GitHub Actions:** Instantiated Fastlane with GitHub Actions CI/CD to streamline and automate the app release process with a single click. Utilized Fastlane features such as automated build generation, code signing, and test deployment for React Native, while leveraging GitHub Actions for continuous integration, automated testing, and seamless deployment. This setup ensured efficient, reliable, and repeatable release cycles.
- **AWS Management:** Managed AWS EC2, CloudFront, and S3 for CI/CD, establishing workflows in GitHub to automate production releases.
- **Code Quality Assurance:** Actively participated in code reviews and maintained GitHub repositories to ensure a linear commit history.

### React Native Developer

June 2020 - Oct 2022

Webmobil Technologies Pvt Ltd

Noida, India

- **Designed User-Friendly Photo Memory App:** Designed intuitive interface for easy photo organization uploads. Integrated reliable reminder system for events. Ensured data security with strong authentication. Includes feature for reliving old memories. Apps: Android | iOS App.
- **Built E-commerce NFC Scanning App:** Designed app with modules for e-commerce NFC scanning. Integrated Stripe payment method. NFC feature retrieves user details on mobile. Android App | iOS App.
- **Developed User-Friendly News & Crypto Tracking App:** Designed interface for browsing latest news articles and real-time news feed from trusted sources. Created system to track favorite cryptocurrencies and compare performance. Android App | iOS App.
- Collaborated with stakeholders, adhering to **Agile practices** and ensuring project timeline adherence.

## EDUCATION

---

### Nagpur University

B.E in Computer Science and Engineering

Apr 2013 - May 2017

Nagpur, India

## SKILLS

---

- **Languages:** JavaScript, Typescript
- **Mobile Application:** React Native
- **Web:** React.js, SEO, HTML, CSS, Tailwind, Bootstrap
- **Cloud Platforms:** AWS
- **DevOps:** CI/CD Workflow Integration with GitHub
- **Testing:** Jest, Enzyme, React Native Testing Library
- **Tools:** GitHub, Jira, Confluence, Postman, Sonar

## RECOGNITION

---

- "Amplifi Star Value Award" for outstanding performance - **Gojoko Technologies**
- "Best Team Award" in appreciation of outstanding performance to the organization - **Webmobril Technologies**
- "On The Spot Award" from client for high quality and timely deliverable - **Webmobril Technologies**
- "Special Initiative Award" for outstanding performance in Info Security Awareness - **Webmobril Technologies**
