BACKEND DEVELOPER

Aspiring to secure a dynamic role within the IT industry, I am eager to leverage my extensive knowledge in PHP programming and Python programming, and web development using frameworks such as Laravel. Proficient in MySQL and well-versed in data structures and algorithms, I specialize in backend development with a strong focus on PHP. With 1.6 years of hands-on experience in building robust and scalable web applications, I am committed to contributing to the growth of an organization that values innovation. I am seeking a stimulating work environment where my passion for technology can thrive, and where I can continuously enhance my skills to make impactful contributions towards the company's success

SKILLS & PROFICIENCIES

- **Programming Languages:**
 - Php Core
 - Python (Skilled in Data Architecture, ETL, and Machine Learning)
- **Web Development:**
 - Laravel Framework
 - Frappe Framework
 - HTML, CSS, JavaScript (Web technologies)
- **Experience with SP API, Shiprocket, DTDC, Cashfree, and Razorpay APIs for e-commerce, courier, and payment solutions.**
- **Database Management:**
 - MySQL
 - MongoDB
- **Restful API (Experience in designing and implementing RESTful APIs for seamless communication between frontend and backend systems)**
- **API Development (Proficient in developing and integrating APIs to enable efficient data exchange and functionality across applications)**
- **Shopify API (Experience in integrating and leveraging Shopify API for e-commerce solutions)**

PROFESSIONAL EXPERIENCE

Nector Foods Pvt. Ltd.

Dec 2022 - Present

Backend Developer

As a backend developer, I specialize in developing dynamic PHP and JavaScript web apps, optimizing MySQL databases for efficiency, and creating interactive user-friendly features. I've also performed cluster data framing for enhanced data organization and analysis. Additionally, I've developed custom functionalities in Shopify and implemented RESTful APIs, including Amazon SP-API, Shiprocket API, Cashfree API, Razorpay API, and DTDC API, receiving recognition for delivering high-quality solutions under tight deadlines.

Accomplishments:

- Developed dynamic PHP and JavaScript web apps, optimizing MySQL database for efficiency
- Leveraged PHP and JavaScript to create interactive and user-friendly website features, enhancing overall user experience.
- Proficiently performed cluster data framing to enhance data organization and facilitate comprehensive analysis.
- Proficiently developed custom functionalities in Shopify, tailoring e-commerce platforms to specific business needs.
- Implemented RESTful APIs, including development of webhooks and Shopify APIs, enabling seamless communication between frontend and backend systems.
- Utilized Amazon SP-API, Shiprocket API, Cashfree API, Razorpay API, and DTDC API for various functionalities, showcasing versatile API integration skills.
- Received recognition for consistently delivering high-quality solutions under tight deadlines, showcasing exceptional problem-solving skills.
- Proficiently performed cluster data framing to enhance data organization and facilitate comprehensive analysis.
- Played a key role in the implementation and customization of Frappe ERPNext, meeting specific business requirements.
