SUMMARY

Data Analyst with 1+ years of experience in leveraging Power BI, SQL, and Excel to transform raw data into actionable insights. Proven ability to design interactive dashboards and reports that drive data-driven decision making.

EXPERIENCE

Data Analyst

Course5i Pvt. Ltd.

📅 07/2023 - Present   📍 Gurgaon

- Partner with business stakeholders to understand their data needs and translate them into clear and concise Power BI reports and dashboards.
- Utilize SQL to extract, clean, and transform data from various sources, ensuring data accuracy and consistency.
- Develop and maintain robust data models within Power BI to facilitate efficient data analysis and visualization.
- Design and implement compelling visualizations (charts, graphs, etc.) that effectively communicate complex data insights.
- Write clear and concise Data Analysis Expressions (DAX) to manipulate data within Power BI and create custom calculations.
- Collaborate with IT teams to ensure secure access and efficient data retrieval processes.
- Regularly present key findings and insights to stakeholders, fostering a data-driven culture within the organization.
- Document data models, reports, and development processes for future reference and knowledge sharing.

B.I. Test Engineer

Marquis Technology

📅 06/2019 - 05/2021   📍 Noida

- Design and implement data analysis plans to evaluate mobile device performance and functionality based on existing test data.
- Utilize data analysis tools (e.g., SQL, Excel, Python) to analyze test logs captured using QXDM or similar tools.
- Identify trends, patterns, and potential performance issues from test data to optimize mobile device performance.
- Collaborate with the QA team to refine test plans based on data-driven insights.
- Analyze bug reports in JIRA to identify recurring issues and potential root causes.
- Track bug resolution progress in JIRA and assess the effectiveness of implemented solutions.
- Develop data visualizations and reports to communicate findings and recommendations to stakeholders regarding device performance and bug resolution.
