## PROFILE

Highly motivated professional with 10+ years' experience developing robust code for groundbreaking web software systems. Skilled in defining, designing, developing, debugging, and managing web applications. I wish to work with a diverse team to acquire more talent and innovation.

## EXPERIENCE

**Senior Full Stack Web Developer | King Saud University, KAI**
**Saudi Arabia, 2012 - 2020**
- Designed and developed a large-scale web app to search 23 universities productions and scientific resources.
- Managed the codebase that contained data for 105 entities, 1590 staff members, 2500 theses, 278 programs, 6418 scientific productions, and 1138 books.
- Contributed in setting software strategy guidelines and improved the follow-up procedures in the department.
- Evaluated and improved projects coded by external providers.
- R&D: Refactored applications codebases and increased performance by 45%.

**Senior Back End Web Developer | King Saud University, RCP**
**Saudi Arabia, 2010 - 2012**
- Automated paper based operations and enhanced the flow of researchers' requests.
- Cut down department requests processing times from 4 months to less than a month.
- Developed the backend codebase for a meeting manager, contacts manager, and attendance systems that simplified department operations.

**Front End Software Developer | Softec International**
**Egypt, 2008 - 2010**
- Developed high-volume frontends for a large scale fleet management system.
- Operated with multiple backend teams of 3 high performing engineers each.
- Refactored the code and reduced the services loading time by 70%.
- R&D: Prototyped individual components which led to outstanding company sales.

**Web Developer | Alfa Electronics**
**Egypt, 2006 - 2008**
- Automated the manufacturing requests procedures between company departments, which raised production by 50%, and cut down failures to less than 5%.
- Created an attendance system which helped to evaluate employees' performance.
