## WORK EXPERIENCE

### Software Developer (2+ Years)

Infoaim Solution Pvt Ltd

04/2022 - Present

Pune, India

Infoaim Solution Pvt Ltd is a company specializing in the provision of a wide range of software solutions and services across the industry.

#### Achievements/Tasks

- Developed various cross-platform mobile applications using React Native and React.
- Published the app to the Play Store and managed subsequent updates.
- Contributed to the development of web applications using HTML, Bootstrap, and AngularJS.
- Implemented API modifications to meet development requirements.
- Implemented UI changes, added new features, and performed bug fixes based on client requirements.

## PROJECTS

### B2B Portal

- The portal offers a seamless platform for businesses to streamline procurement processes. With a vast catalog of products, personalized pricing, and easy order management, it enhances efficiency and convenience for corporate clients.

### Travel & Expenses Management System (Web App)

- The Travel & Expenses Management System streamlines the process of planning, tracking, and reimbursing travel-related expenses, ensuring efficiency and compliance across organizations.

### iScout

- iScout is a hybrid mobile application that helps organizations to track employees on fields with live locations, geofencing for site visits, route planning with maps, submit and manage expenses against travels, daily attendances, etc

### BSRCC

- BSRCC is a complaint management mobile application that is used by clients internally.

### i-Travel

- i-Travel is a cross-platform mobile application that helps organizations manage their employees' domestic and international expenses, daily check-in/Checkout, manage travel booking requests, etc.
