Address: Noor Street Zaryab Colony Faqeerabad # 02, 25000, Peshawar, Pakistan (Home)

● ABOUT ME

As a Full-Stack Developer and Engineer, I possess a diverse set of skills that enable me to create high-quality and efficient web applications.

My expertise in PHP and its frameworks, including Symfony, Phalcon, and Laravel, allows me to build dynamic and scalable backend systems. I am proficient in designing and optimizing SQL databases and creating complex queries to handle large data sets.

My experience with JavaScript and its libraries allows me to develop interactive and user-friendly front-end interfaces.

I am also well-versed in containerization technologies such as Docker, which enables me to create reproducible development environments and simplify deployment processes. My proficiency in Git ensures effective collaboration with teams and smooth version control.

Furthermore, my knowledge and experience in creating and consuming APIs enable me to seamlessly integrate web services and third-party applications into my projects.

Overall, my technical skills and experience allow me to deliver efficient, scalable, and secure web applications that meet the requirements of modern businesses.

● WORK EXPERIENCE

11/01/2020 – CURRENT Bradford, United Kingdom

FULL STACK WEB DEVELOPER (REMOTE) CONNEXTAR TECHNOLOGIES

- **Developing web applications:** Designing and coding web applications and ensuring they meet the specified requirements.
- **Testing and debugging:** Testing the applications, identifying bugs, and fixing them.
- **Collaborating with other developers:** Working with other developers, designers, and project managers to develop and maintain web applications.
- **Code optimization:** Optimizing the code to improve the performance of web applications.
- **Database management:** Working with databases to manage data in web applications, including designing and optimizing database structures, and writing database queries.
- **Security:** Ensuring the security of web applications, including implementing authentication and access controls, and identifying and fixing security vulnerabilities.
- **Documentation:** Documenting the code and applications developed.
- **Maintenance:** Maintaining and updating web applications, including bug fixes and feature enhancements.
- **Continuous learning:** Keeping up-to-date with new technologies, tools, and trends in the field of web development.

01/02/2019 – 11/01/2020 Islamabad, Pakistan

ASSOCIATE SOFTWARE ENGINEER UNICORN TECHNOLOGIES

- Worked as a Laravel developer for building real-time web applications.
- Maintaining the existing code, removing and fixing bugs and adding new features into the existing applications.

- Worked on applications using C#, ASP.Net MVC and MSSQL Server

● **EDUCATION AND TRAINING**

01/09/2014 – 01/09/2018 Peshawar, Pakistan

SOFTWARE ENGINEERING University of Engineering & Technology

Website <https://www.uetpeshawar.edu.pk/>

● **LANGUAGE SKILLS**

Mother tongue(s): **URDU**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C2	B2	B2	C2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

● **DIGITAL SKILLS**

Symfony | Laravel | Phalcon Framework | React Js | JavaScript - JQuery | Docker | Version Control System (Git) | SQL | Data Science | Data Collection, Data Processing, Data Analysis, Data Visualisation | Python | Wordpress | Html, Css, Bootstrap | REST SOAP APIs development | Linux | JSON | PHP

● **ADDITIONAL INFORMATION**

PROJECTS

Dr. Berg

- Memberships
- Authentications and authorizations
- Video blogs section
- Front-end and Admin Panel
- Custom CSV Export functionality of very large number of records using batch processing to avoid timeout issues on the server
- Klaviyo API
- Phalcon (PHP) framework used for development.

Link <https://drberg.com>

Courses Dr. Berg

- Wordpress LMS applications designed using Learndash plugin and Woocommerce.
- Custom theme and plugins development
- Custom developed and designed pages for single products, checkout and Learndash pages
- Payment integrations.

Link <https://courses.drberg.com/>

Location Collective

- Its Admin panel is a custom-built CRM with modules for enquiries, locations, tasks, role based users/ customers etc.
- Front-end designed with React JS and blog section with Wordpress
- Server-side implementation of Datatables JQuery
- Syncing users' data to DotDigital platform via their API
- Generating Invoices and syncing to the Xero accounting software.
- Creating enquiries for the available locations and then shortlisting them.
