WORK EXPERIENCE

Full Stack Developer Intern

Bhabha Atomic Research Centre 📅 01/2024 - 06/2024 📍 Mumbai

- **Developed** dynamic and responsive user interfaces using React.js, enhancing the user experience and application performance.
- **Created** reusable React components and hooks to streamline development and improve code maintainability.
- **Integrated** Node.js modules to extend application functionality and access system resources.
- **Developed** cross-platform desktop applications using Electron.js, providing a native application experience on Windows, macOS, and Linux.
- **Leveraged** CSS libraries such as Bootstrap, Tailwind CSS, and Material-UI to create visually appealing applications.
- **Implemented** Elasticsearch for efficient indexing and searching of large datasets, improving search performance and data retrieval speed.
- **Developed** Python scripts to interact with Elasticsearch for data indexing, searching, and querying.

PROJECTS

Development of native desktop application for email analysis

📅 01/2024 - 06/2024 📍 Mumbai

- **Designed** and **developed** a native cross-platform desktop application using Electron.js and React.js to efficiently analyze and manage email data.
- **Developed** a dedicated interface within the application for viewing and managing attachments, enhancing user interaction and efficiency.
- **Leveraged** Elasticsearch's querying features to enable efficient data retrieval and analysis.
- **Managed** email attachments by storing them locally and indexing their paths in Elasticsearch, facilitating easy access and organization within the application.
- **Tech Stack:** HTML, CSS, JavaScript, React.js, Tailwind CSS, Elasticsearch, Python, Kibana, Node.js.

Blog Sphere web application

- **Developed** a web application enabling users to create, edit, and manage visually appealing blogs for future reference.
- **Implemented** features for deleting and updating blog posts.
- **Designed** a carousel and card layout on the homepage for enhanced user experience.
- **Integrated** feedback functionality, allowing users to provide feedback on blog posts.
- **Tech Stack:** HTML, CSS, JavaScript, React.js, Tailwind CSS, Python, Node.js, Django.

Document Desk Application

- **Developed** a desktop application enabling users to efficiently manage folders and documents on their computer.
- **Provided** functionality for users to configure a root folder and create subfolders within it directly from the application.
- **Implemented** features for copying documents, images, and files into desired folders.
- **Tech Stack:** HTML, CSS, JavaScript, React.js, Tailwind CSS, Python, Node.js.

EXTRACURRICULAR ACTIVITY

Attended the Foreign Intelligence Agencies - Threat to vital installations seminar

CAREER OBJECTIVE

Seeking a challenging role as a Full Stack Developer to leverage my skills in full-stack development, data analysis, and application optimization, contributing to organizational growth and staying abreast of emerging IT trends.

COURSES AND CERTIFICATIONS

- 📄 Internship Completion Certificate.
- 💎 ReactJS for Frontend.
- 💎 Python for data structure.

TECHNICAL SKILLS

ReactJS	Redux	NodeJS	Git
GitHub	HTML5	CSS3	JavaScript
Python	Elasticsearch	Django	
Front End	Bootstrap	TailwindCSS	
Material UI	MongoDB	Rest API	

OTHER PROFILE

- 🌐 Vaibhav Gitte
- 🐙 VaibhavTGitte17

EDUCATION

B.Tech in Information Technology

Dr Babasaheb Ambedkar Technological University

📅 2020 - 2024

Higher Secondary Education

Shri Sakeshwar Science Junior College

📅 2018 - 2020
