OBJECTIVE

I am a skilled professional with experience in supply chain management. I possess strong analytical, communication, and project management skills, which enable me to identify areas for improvement and provide data-driven recommendations. My attention to detail and problem-solving abilities allow me to resolve issues and ensure compliance. Additionally, my negotiation skills and ability to build positive relationships with customers have enabled me to manage and optimize customer performance. I am proficient in using various technical tools and software, such as tracking software, database management, and project management software.

EXPERIENCE

Light Speed Business Services Business Analyst

June 2022 – Present

Light Speed Business Services supports Light Speed Logistics Inc., a Canadian firm renowned for timely cargo transport across the US and Canada. We have 500 trucks and 1000 trailers with reefers.
