Rohit Panwar

J 9997630675 ✓ rohitpanwar09871@gmail.com inlinkedin.com/in/rohit-panwar-5913b1241/

Summary:

Full Stack Software Developer with expertise in Front-end and Back-end Development, with a passion for designing user-friendly interfaces. Adept at collaborating with cross-functional teams to deliver high-quality, impactful solutions. Proven ability to learn and apply new technologies quickly and effectively. Seeking to leverage skills in a dynamic and growth-oriented environment to contribute to innovative projects.

Skills:

- **Technical Skills**: Javascript, Java, Python, React, Next.js, Redux, Nodejs, MongoDb, Bootstrap / Tailwind, Git / Github, SQL, MySQL
- General Skills: Problem Solving Capability, Innovative, Adaptability, Patience
- Other Skills: Advanced Excel

Personal Projects:

Stack-OverFlow Clone | <u>stack-overflow-rohit.netlify.app</u>

Nov 2023 - Jan 2024

- Designed and developed a full-stack web application inspired by Stack Overflow, aimed at providing a
 platform for developers to ask questions, share knowledge, and collaborate within a community-driven
 environment.
- Implemented features for users to post questions, provide answers, and comment on posts, fostering interactive discussions.Implemented user authentication and authorization using JSON Web Tokens (JWT) for secure access to personalized profiles and post history.

Frontend: React.js, Redux, Javascript Backend: REST APIs, Node.js and Express.js, MongoDB

E-Commerce App | github.com/RohitPanwar03/eShopp

Feb 2024 - April 2024

- Designed and developed a feature-rich e-commerce web application using the MERN stack to provide users
 with a seamless shopping experience, emphasizing performance, scalability, and security. Implemented a
 robust product catalog with filtering, sorting, and search functionalities to enable users to easily find desired
 products. Integrated secure user authentication using JWT for login, registration, and personalized user
 profiles with order history and preferences.
- Created an admin interface with CRUD functionalities for managing products, orders, and user accounts, enhancing operational efficiency.

Frontend: React.js, Bootstrap, Javascript Backend: REST APIs, Node.js and Express.js, MongoDB

Advance Weather Forecast App | github.com/RohitPanwar03/Advance-Weather

April 2024 - May 2024

- Designed and developed an advanced weather application to provide real-time weather forecasts and meteorological data using modern software development techniques and APIs. Implemented geolocation capabilities to automatically detect and display weather information based on the user's current location.
- Integrated with weather APIs to fetch and display current weather conditions and forecasts for user-defined locations.

Frontend: Html, Tailwind Css Backend: Javascript

Education:

Bachelors of Computer Applications (BCA)
Chandigarh University
Full Stack Development Course
Internshala Trainings
Bachelors of Arts (BA)
D.A.V Pg College
