# Saad Amir

Full Stack Developer - MERN/ MEVN Stack

📍 Dubai , UAE

## Profile

I'm a seasoned Full Stack JavaScript Developer with 6 years in MERN stack. Skilled in crafting scalable web apps, I bring valuable expertise to boost team success. Committed to staying at the forefront of industry trends.

## Experience

### Full Stack Developer @ Scopic Software - USA

09/2022 - 12/2023

Key player as a Full Stack Developer, adept in crafting responsive and dynamic user interfaces with Vue.js and React.js. Implemented real-time features using Socket.io and contributed to scalable server-side applications with Node.js and Express.js.

### Full Stack Developer @ CV Paper - Pakistan

04/2018 - 09/2022

Spearheaded robust web app development at CV Paper, excelling in MERN stack implementation. Led API integration, optimized databases, and actively contributed to Agile methodologies for efficient collaboration.

### Full Stack Developer @ Filmocracy - USA

02/2017 - 04/2018

As a Frontend Developer, I specialized in Vue.js, crafting responsive and dynamic user interfaces. Proficient in Figma, I seamlessly integrated design vision into interactive implementations.

## Education

### Intermediate in Computer Science (ICS)

2018 - 2020

Aspire Group of Colleges - Sialkot , Pakistan

### Secondary School Certificate (SSC)

2016 - 2018

Pakistan International School - Al-Khobar , Saudi Arabia

## Projects

### AngioCloud - <http://angiocloud.com>

AngioCloud revolutionizes 3D vascular image work for medical professionals. Access high-quality, interactive visualizations from any device, anywhere—no bulky workstations needed.

Technologies: VueJs , Quasar framework , Vuex

### Picflow - <https://picflow.com/>

Pickflow: A digital signage app facilitating seamless gallery creation for display on screens. Intuitive interface, simplifying content presentation, captivating audiences with dynamic visuals.

Technologies: VueJs, Vuex, Socket.io, Tiptap, Node.js, Flask

### Blue Protocol Game Map - <https://interactivemap.app/>

Developed Blue Protocol Game Map, a web-based interactive tool enabling users to explore, share experiences, and annotate in-game maps. Implemented features for adding points and notes, enhancing user engagement and collaboration.

Technologies: ReactJS, Redux, Leaflet.js, Node.js, Express.js, Codeigniter, MySQL and more
