

# Sadique K M

## Software Engineer

"Experienced Java Developer with around 1.5 year of practical proficiency in crafting resilient and performant software solutions. Well-versed in Java, Spring Boot, and MySQL, backed by a solid grasp of object-oriented programming and software engineering fundamentals. A collaborative and proactive team member, adept at tackling challenges and consistently delivering meticulous code within deadlines. Eager to apply my skills and contribute to pioneering projects within a dynamic and progressive setting"

## WORK EXPERIENCE

### Software Engineer

#### Msys Technologies Pvt Limited

04/2022 - 07/2023

Bengaluru

Msys Technologies | Software Product Engineering Services.

##### Summary

- Collaborated with a team of developers to design and implement new features for a Payment Gateway application using Java, Spring Boot, and PostgreSQL.
- Developed RESTful APIs for data retrieval and manipulation, resulting in improved system performance and efficiency.
- Conducted unit testing and resolved bugs to ensure the stability and reliability of the software.
- Participated in daily stand-up meetings and contributed to sprint planning and estimation.
- Assisted in the maintenance and support of existing applications, including troubleshooting and resolving customer-reported issues.

### Intern

#### Teple Innoventive Solutions Pvt Limited

03/2021 - 07/2021

Mysuru

##### Summary

- As an Intern, I have undertaken creative project that showcase my technical skills and innovative thinking. One such project was the development of a Attendance monitoring system called " Real Time Attendance Monitoring".
- To ensure the project's success, I employed an agile development approach, conducting regular sprints and incorporating user feedback through usability testing sessions. This iterative process facilitated continuous improvement and ensured a high-quality end product.
- This project not only highlighted my technical expertise but also demonstrated my ability to think creatively, solve complex problems, and deliver exceptional user experiences.

## EDUCATION

### Master of Computer Applications (MCA)

#### Maharaja Institute Of Technology

2017 - 2021

68%

### Bachelor Of Computer Applications(BCA)

#### St Anne's Degree College

2014 - 2017

68.48%

## TECHNICAL SKILLS

JAVA

Springboot

Python

MySQL

PostgreSQL

HTML

CSS

JavaScript

Github

MS Office

## PUBLICATION

SADIQUE K M "Real-time Monitoring of Workforce: An approach based on Deep Features"- International Journal of Computer Applications 183(29):13-16,October-2021

## PERSONAL PROJECTS

Real Time Attendance Monitoring–Python(Flask)

First Aid and Emergency Techniques–JAVA(Android)

Emergency Responder–JAVA(Android)

## CERTIFICATES

Version control with Git (Coursera) (06/2021 - present)

Oracle Cloud Infrastructure Architect Associate(Oracle University)

(Ongoing)

## INTERNSHIP

Teple Innoventive Solutions Pvt. Ltd.  
(03/2021 - 07/2021)

## LANGUAGES

English

Native or Bilingual Proficiency

Hindi

Professional Working Proficiency

## ASPIRATION

Aspiring to constantly enhance my skills through continuous learning, staying updated with emerging technologies and industry best practices to deliver innovative software solutions.
