

PERSONAL SUMMARY

- Approx 4.6 years of experience in web application development.
- Interpersonal and team management skills.
- Requirement gathering and analysis, Code, debug, unit test, deploy and support.
- Handled complete project, sincere in my work.
- Experienced in technologies like HTML, CSS, JavaScript, jQuery, Ajax, JSON, PHP, and MySQL.
- Planning, develop, design and implementation of complete websites.
- Understanding MVC Architecture pattern.
- Hands on Experience in working with Apache Web Server and ability to handle both backend and server-side basic configuration.
- Hands on experience in PHP frameworks like CodeIgniter , Cakephp and Laravel.
- Integration of third-party services such as SMS Gateway (Twilio, msg91, Textlocal and Amazon SNS), Postcode.nl International address API and FFmpeg.
- Worked on AWS S3 Bucket, Amazon SNS, Amazon SES and Amazon EC2 Instance.
- Excellent understanding of object-oriented designs.
- Create and consuming REST, JSON based APIs.
- Integrated Payment Integration like PayPal, Paystack and Braintree.

EMPLOYMENT SUMMARY

Job Title	Company	Year
Software Engineer	Instant Systems Inc	July 2023 to present
Software Engineer	Collegedunia Web Private Limited	Oct 2022 to May 2023
Software Developer	ChromeInfo Technologies Private Limited	January 2022 to Sept 2022
Software Engineer	Chetu India Private Limited	May 2021 to December 2021
PHP Developer	AppSquadz Software Private Limited	June 2019 to January 2021

TECHNICAL SKILLS

Tech Stack	PHP	JavaScript	CSS	CodeIgniter	Ajax
	MVC Framework	jQuery	REST API	Laravel	HTML
	Apache Web Server	Ubuntu			
Databases	MySQL				
Web Server	Apache				
Framework	CodeIgniter	Laravel	Cakephp		
AWS	EC2	SES	S3		
Operating System	Windows	Linux			

PROJECT DETAILS

Project 1	: Five Star Technologies (Mobile App & Admin panel) (AppSquadz Software Private Limited)
Tools & Technology Used	: PHP, CodeIgniter, MySQL, JavaScript, jQuery, JSON, HTML, CSS, Apache, Windows OS

Roles & Responsibilities:

- I was involved in the development of an e-commerce application specifically designed for electronic gadgets. In this project, I had the responsibility of creating and managing the database infrastructure.
- Additionally, I designed and implemented the REST APIs to facilitate seamless communication between the mobile applications (iOS and Android) and the backend.
- Moreover, I took charge of developing an intuitive admin panel that empowered the administrators to effortlessly handle crucial tasks such as managing categories, subcategories, and product details.
- This involved creating functionalities for adding, updating, and deleting various elements within the system.

Project 2	: Kaam Ki App (Mobile App & Admin panel) (AppSquadz Software private limited)
Tools & Technology Used	: PHP, CodeIgniter, MySQL, Apache, Windows OS

Roles & Responsibilities:

- I contributed to the development of a scientific calculator application that encompassed various scientific functionalities.
- Within the app, users could perform a wide range of mathematical operations, including addition, subtraction, square root calculations, factorial calculations, and more. In this project, I primarily focused on creating REST APIs for fundamental modules such as Login, Sign-up, Forgot Password, Reset Password, About Us, and FAQ. Additionally, I was responsible for implementing small modifications and creating additional APIs to ensure a seamless user experience and enhance the overall performance of the application.

Project 3	: Movers (App & Admin panel) (AppSquadz Software private limited)
Tools & Technology Used	: PHP, CodeIgniter, MySQL, Apache, Windows OS, S3

Role & Responsibilities:

- I contributed to the development of a transportation app designed to facilitate the delivery of goods from source to destination. The app consisted of three main modules: Company, Vehicle Owner, and Driver. My role in this project involved creating the database schema for all the modules and developing APIs for the mobile application. I designed and implemented APIs for basic signup functionality across all user types, as well as APIs for job creation, updating, and negotiation.
- Additionally, I was responsible for developing the driver assignment API and managing order-related information through the APIs.

Project 4	: Aap ka Munim (App & Admin panel) (AppSquadz Software private limited)
Tools & Technology Used	: PHP, Laravel, MySQL, Apache, JavaScript, HTML and CSS

Role & Responsibilities:

- Developed and maintained APIs for an Expense Manager App, similar to Monify, as part of the client's Kaam Ki App mobile application project. Responsible for designing and maintaining the app's database.
- Played a key role in enabling users to effectively manage their daily expenses through seamless API integration.

Project 5	: Burzz (Web & Mobile App) (Chetu India private limited)
Tools & Technology Used	: CodeIgniter, MySQL, Apache, Windows OS, S3, Payment Integration

Role & Responsibilities:

- Contributed to the development of a dating application, similar to Tinder, by integrating payment integration functionality and addressing bugs and updates as per client requirements.
- Additionally, I actively addressed bugs and updates reported by the client, diligently identifying and resolving issues to ensure optimal app performance. Through effective debugging and troubleshooting, I contributed to maintaining a stable and error-free user experience.

Project 6	: Video Mixing App (Chetu India private limited)
Tools & Technology Used	: Laravel, MySQL, Apache, Windows OS, S3, JavaScript, FFmpeg

Role & Responsibilities:

- Led the development of a unique application focused on enhancing and reliving cherished memories for loved ones.
- This application aimed to merge various videos into a single, special compilation for significant life events such as weddings and birthdays.
- In this project, I took charge of creating the project architecture and developing the database from scratch. With meticulous attention to detail, I integrated essential features and video-related functionalities into the website.
- By leveraging my expertise, I ensured seamless integration and user-friendly navigation throughout the application.

Project 7	: FindMerit (Job portal) (ChromelInfo Technologies Private Limited)
Tools & Technology Used	: Laravel, MySQL, JavaScript, Apache, Windows OS, HTML, CSS, Repository design pattern

Role & Responsibilities:

- Enhanced and integrated new features and user interfaces for candidate and recruiter modules of a job portal website.
- In this role, I focused on expanding the functionality of the website by adding innovative features and seamlessly integrating the user interfaces for both the candidate and recruiter modules.
- For the candidate module, I improved the user experience by designing an intuitive interface for creating profiles, uploading resumes, and searching for job opportunities. In the recruiter module, I optimized the hiring process by creating a streamlined interface for posting job listings, reviewing candidate profiles, and managing recruitment activities.

Project 8	: Collegedunia.com (Collegedunia Web private limited)
Tools & Technology Used	: Laravel, MySQL, JavaScript, Redis, Elasticsearch

Role & Responsibilities:

- Responsible for adding new features and maintenance of Collegedunia website. In this project, I focused on adding new features and ensuring the smooth functioning of various modules within the website.

- Specifically, I worked on enhancing the College Listing Page, Course Listing Page, Country Overview Page, Rank Predictor Page, and the Write a Review Module. By incorporating new functionalities and maintaining these

Project 9	: Clove Dental (Instant Systems Inc)
Tools & Technology Used	: Cakephp, MySQL, Php, JavaScript, Jquery, Linux, SQLYog and Ajax

Role & Responsibilities:

- Working on most used dental product **Clove Dental**. Responsible for adding new features and maintenance of Clove Dental PRM. PRM is basically Patient Relationship Management cycle in which we are managing patient records lifecycle from booking an medical appointment to its final treatment.
- Worked on different modules such as treatment, worklog, reports, invoice, appointment and subscriber module.

EDUCATIONAL QUALIFICATION

Qualification	College/School/University	University/Board	Year
B-Tech	Noida Institute of Engineering & Technology.	UPTU	2019
Intermediate	IIPICD Gonda	UP	2013
High school	Shri Mahadev HSS Ramnagar, Gonda	UP	2011

EXTRA CURRICULAR

- Attended workshop on Cloud computing conducted by DUCAT.
- Attended workshop on SALESFORCE conducted by DUCAT.

PERSONAL DETAILS

Nationality : Indian
 Date of Birth : 02 August 1996
 Gender : Male
 Language : Hindi and English

Declaration

I assert you that the information furnished above are all true to my knowledge.

Place : Noida
 Date :

Saif Ali
