CAREER PROFILE

Skilled and Efficient iOS application developer with 4 years of experience in creating unique and modern applications available in appstore. Proven ability to work independently or as part of a team. I understand the importance of creating highly readable and easily maintainable source code. I am constantly trying to learn new technologies and find ways to improve myself in this rapidly changing industry.

WORK EXPERIENCES

Leads iOS Developer
New Generation For Information Technology Ltd, Riyadh - KSA
Mar 2019 - Present

NGIT is an IT organization which is under in Othaim Group in KSA. Main responsiblity to develop the apps which is "PrintX" , "MallsApp" . Latest project "PrintX" - Where the user get their documents print online while uploading through app, the user can choose either delivery or pick them up from the store for their printed documents. "MallsApp" an app brings the idea to get all the details about malls,brands,movies, offers and riyadh seasons event's details etc…I maintained their existing app "Alsakan" - where to book the askan for an event.

Junior iOS Developer
Semanoor International, Riyadh - KSA
Oct 2017 - Feb 2019

Semanoor developed the app called "Semanoor" which is bigger application for smart education system.I was hired to maintain, updates ,new feature implementation with developer teams. The project includes so many features like mindmap ,e-lesson ,create books, publish books to public or contacts , video call confrence classes ,preparing presentation etc…My responsibility was to maintain the exsiting ipad app to iphone version without breaking the exisiting app's designs in ipad.

iOS Developer
Excellent Solution, Riyadh - KSA
Mar 2017 - Aug 2017

Hired me to develop the application. "Capable" - the app helps to learn english for the arab peoples those who don't know any basic in english.I developed the first verison of the "Capable" for the purpose of internal use.

ios Developer
Cabxy , Riyadh - KSA
