

# SAJID KHAN

## OBJECTIVE

Technology & Innovation driven professional targeting challenging role in the area of Software Development with a focus on Front-end and Full Stack Development, leveraging skills in creating interactive dashboards, modular UI components, and collaborating with cross-functional teams to contribute to the growth and success of a reputable organization.

**Location Preference:** UAE, Saudi Arabia & Kuwait.

## PROFILE SUMMARY

- Bringing over **5 years** of expertise in **front-end development** within the technology industry, with a strong foundation in **HTML5, CSS3, JavaScript, NodeJs, ReactJS, and NextJS**.
- Currently excelling as a **Senior Front-end Engineer at Orcalo Holdings** spearheading multiple projects, architecting project frameworks, and ensuring code excellence and sustainability.
- Proficient in creating **user-centric web applications** and components using **React**, enhancing application performance and security.
- Recognized for architecting project frameworks that promote **maintainable, clean, and efficient code**, boosting team productivity and project scalability.
- Acquired knowledge in **Agile methodologies, Git, and AWS deployment**, contributing to effective project management and timely deliveries.
- Skilled at **fostering knowledge sharing and providing detailed documentation** for streamlined maintenance and future project viability.
- Committed to **continuous improvement** through rigorous testing, bug identification, and rectification to optimize application performance and user satisfaction.
- Updated knowledge by **studying state-of-the-art development tools**, programming techniques, and computing equipment, participating in educational opportunities, reading professional publications and maintaining personal networks.

## WORK EXPERIENCE

**Orcalo Holdings | Pakistan**  
**Senior Front-end Engineer**

**Jan 2023 – Jan 2024**

- Led multiple projects, employing **TypeScript, Material UI, NextJS, ReactJS, Redux, and Redux Toolkit Query** to develop advanced solutions, achieving **high standards of quality** and innovation.
- Designed project frameworks to foster **maintainable, efficient, and scalable** code, thereby boosting **team productivity** and **project scalability**.
- Improved application **performance** and **security** by crafting user-centric, **multilingual** web applications and components using **React**, **enhancing overall user experiences**.
- Maintained code excellence and sustainability through the implementation of **robust, performance-driven, and modular** code, while adhering to industry **best practices**.
- Collaborated closely with back-end developers, middleware, and UX/UI designers to facilitate seamless project delivery aligned with objectives.
- Actively participated in **sprint planning, reviews, and retrospectives**, adhering to **agile/scrum** methodologies to support effective project management and timely delivery.
- Enhanced future project development by creating **clean, efficient, and reusable** code structures, while conducting rigorous testing to identify and rectify bugs and performance bottlenecks, ultimately improving user satisfaction and optimizing long-term project viability.
- Promoted knowledge sharing and optimized future maintenance by delivering thorough documentation for code and development procedures, ensuring seamless continuity and efficiency in subsequent projects.
- Ensured consistent user experiences through rigorous testing of website compatibility across different browsers and devices, thereby securing optimal performance and accessibility.

### Highlights:

- Successfully trained teams in the latest technologies, bridging gaps in their skill sets and enabling them to adapt to the next phase of development.
- Revamped previous products by updating them with the latest advancements and ensuring they remained competitive in the market.
- Introduced new libraries and technologies to the teams, enhancing their capabilities and expanding their toolkit for future projects.

## CONTACT

- 📞 +971-52-8557324
- ✉️ sajidsaedpk50@gmail.com
- 🌐 <https://linkedin.com/in/sajidkhanpk/>
- 📄 <https://github.com/sajidkhanpk/>

## CORE COMPETENCIES

- Data Structures and Algorithms
- Test Driven Development
- Scalable Application & Database Designs
- Agile Development Methodologies
- AWS Development
- Material UI Integration
- Responsive Web Design
- Cross-Browser Compatibility
- User Interface Optimization
- Component-Based Architecture

## TECHNICAL SKILLS

**Programming:** ●●●●○  
JavaScript, TypeScript, NodeJs, ReactJS, NextJS, jQuery

**UI:** ●●●●○  
HTML, JSX, CSS, SASS, Tailwind CSS, Material UI, Bootstrap

**Architecture & Design:** ●●●●○  
Web Services, REST API Design

**Tools and libraries:** ●●●●○  
GIT, JIRA

**Database:** ●●●●○  
MongoDB, MySQL

## SOFT SKILLS

- Communicator: ██████████
- Analytical: ██████████
- Leader: ██████████
- Attention to Detail: ██████████
- Problem Solver: ██████████
- Quick Learner: ██████████

## EDUCATION

### B.Sc. (Software Engineering)

International Islamic University Islamabad, Pakistan with GPA 3.39 (2021).

## CERTIFICATIONS

### AlgoExpert — Problem Solver (Dec 2023)

- Completed more than 100 AlgoExpert coding questions.
- LINK:** <https://certificate.algoexpert.io/AE-63734a912b>

## PERSONAL DETAILS

**Date of Birth:** 8<sup>th</sup> January 1997

**Languages:** English, Urdu, Pashto

**Address:** UAE

### Jalebi | Pakistan Senior Frontend Engineer

Feb 2022 – Dec 2022

- Led multiple projects using **HTML, CSS, SASS, JavaScript, ReactJs**, and **Redux** to deliver effective solutions.
- Used React to create user-friendly, **multilingual** product dashboards, leading to better user experiences.
- Developed **responsive** UI components in React to improve website **performance** across browsers and devices, increasing accessibility and user reach.
- Conducted comprehensive **testing** to identify and resolve performance issues, resulting in optimal application performance and user satisfaction.
- Improved project management and execution by providing thorough documentation for code and development processes, facilitating knowledge sharing and streamlined maintenance operations.

#### Highlights:

- Overhauled a product's UI design, transforming it from outdated to modern and user-friendly, thereby improving user experience and satisfaction.
- Managed parallel development of 2 products, utilizing React.js for one and HTML, CSS & JavaScript for the other, displaying versatility and proficiency across different tech stacks.
- Architected a framework for both projects, facilitating seamless onboarding of new developers and juniors, thus ensuring continuity and efficiency in project development.

### AlphaSquad | Pakistan Fullstack Engineer

Sep 2021 – Feb 2022

- Spearheaded product growth and efficiency by 40% through the design and implementation of a visual code extension utilizing **Nodejs, TypeScript**, and Svelte, expanding the customer base and reducing development time.
- Improved product **performance** by 25% and enhanced user experience by implementing optimization strategies, resulting in reduced page load times.
- Transformed the process of generating custom screenshots for product components by 80% through the automation of NodeJs scripts, decreasing manual effort and increasing efficiency.
- Worked with a team to create a **secure** and responsive product selling website using **Nextjs** wherein **Secure payment gateways** were integrated for seamless transactions and user experience.
- Used Chart.js to create dynamic data visualizations for real-time monitoring of product sales indicators, resulting in significant insights for decision-making.

### Medical Care Pakistan | Pakistan Co-Founder & CTO

Feb 2019 – Aug 2021

- Displayed entrepreneurial leadership as the co-founder and CTO of a startup, driving innovation and growth through strategic vision and technical expertise.
- Enhanced user experiences by conceptualizing and implementing innovative **product flows**, delivering robust solutions that improve usability and satisfaction.
- Led product development as a proficient full-stack developer, utilizing **HTML, CSS, JavaScript**, and Laravel to continuously improve and innovate.
- Optimized product functionality by designing and implementing intuitive dashboards tailored to various user roles, enhancing user engagement and satisfaction.
