SKILLS

- SQL • Power BI • Sprint Planning
- Debugging and Troubleshooting
- Statement of Work (SOW)
- Business Requirements Document (BRD)
- Functional Requirements Document (FRD)
- Technical Documentation • MS Office
- Strategic Planning • Communication Skills
- Agile Methodologies • Scrum
- Problem Solving

OTHERS
- Secondary Research • Data Analysis
- Project Management
- Market Research • Solution Design
- Client Presentation and Demonstration

EDUCATION

2016-2021
JAYPEE INSTITUTE OF INFORMATION TECHNOLOGY
Integrated(B.tech+M.tech) in CSE

2015-2016
NATIONAL CHILDREN HIGH SCHOOL
Senior Secondary

2013-2014
GWALIOR GLORY HIGH SCHOOL
Secondary

EXPERIENCE

Databridge Market Research | Client Engagement Analyst
Nov 2022 - Now
- My role encompass both client acquisition and management. This involves understand and translate requirements of clients into concise summaries in form of proposals, decks, reports samples, fact books, dashboards, etc.
- Developing industry/sector snapshots,company profile, executive bios etc for the automotive, semiconductor and Information and Communications Technology (ICT) domain.
- Understanding of pre-sales in professional service environment.
- Provide high quality, client ready pre-sale deliverables on dedicated timeline.
- Engaged in attending client calls (to understand their requirement and build custom study scope) and catering pre-sales client queries.
- Gathering information from various sources such as surveys, interviews, databases, and online research to design and develop pre-sales deliverables.
- Proficiency in using various research tools, statistical software, and data visualization platforms.

Ezbiz Technologies Pvt. Ltd | Business Analyst
June 2021 - Nov 2022
- My role is to deal with the client and hear his expectations, decide timeline and give innovations which may be helpful for the client.
- Experience leading cross functional teams in development, documentation and the delivery of the process.
- Include ordering equipment and supplies, managing deadlines and workflow, and scheduling meetings and appointments.
- My main responsibility is to ensure that the project is running smoothly and on time.

PROJECTS

HH-W ALGORITHM TO TRAIN NEURAL NETWORK WEIGHTS
Jan 2020 - May 2020
- Combining Harris-Hawk and Whale (Nature Inspired Algorithm) to train the weights of the Neural Network as they stuck in the local optima when trained through back-propagation, thus by achieving optimal weights give better results.

Personalised Heart Monitoring and Reporting System
June 2019 – Dec 2019   **ML | Python | Neural Network**

- Predicted heart disease based on various attributes and reported medications to prevent the coronary illness and exercises to stay healthy and fit.
- Algorithm/Skillset: KNN, GBM, SVM, Random Forest, GLM, Shiny(Webpage), Binary Search.
- Converted into a product and presented as an iOS app and web app with various other features,hosted the server on cloud.
