Certifications:

- Certified UI Path developer
- AWS Online Conference Certification

Skill Set:

- Programming Language: C, C++, Java, Dart
- Android Development
- Flutter
- Microsoft Office

Academic particulars:

- B.E in Electronics and Communication Engineering with 8.4 CGPA from Kongu Engineering College, Erode

Academic Projects:

Project Title	Coin Based Mobile Charger
Project Description	<ul style="list-style-type: none"> -To reactivate a low or dead battery -To retrieve vital text or voice mail -No need to carry around a charger -Fast micro pulse charge in 10 minutes -Make and receive calls while charging -Never be without a charged phone again

Project Title	Server Room Environment Monitoring System
Project Description	<p>The proposed system provides a full line of environmental sensors that deliver protection by proprietary installations or update subscriptions. Regardless of the industry size or complexity, the system has a cost-effective monitor and sensor solution that will reduce risk and enable smooth IT operations for the company.</p> <p>Having an independent system check on the air conditioning unit and monitoring devices is a wise precaution.</p>

	The future scope of the project is by coupling the existing system with the warning alerts before the conditions become critical or out of control.
