

Siva Sankar

Senior Software Engineer

Seasoned iOS Developer with over six years of hands-on experience in designing, developing, and deploying cutting-edge mobile applications. Proficient in Swift with a deep understanding of iOS frameworks and industry best practices. Proven track record of delivering high-quality, user-centric apps that meet and exceed client expectations. Seeking a challenging leadership role where I can leverage my extensive expertise to drive innovation, mentor junior developers, and contribute to the continued success of forward-thinking projects.

Experience

○ **Feb 2023 - Current**
Free Lancer | Bangalore, Karnataka
Senior Software Engineer

Project: Urban Tiller

We are one of the first few farm-to-home platforms for Fresh, Safe and Sustainably grown vegetables. Now, you can get fresh veggies delivered to your door within 6-8 hours of harvest! The only way you can beat the freshness of our produce is by growing your own in your home or backyard.

Launched with an initial assortment of leafy greens, we plan to rapidly expand our offerings to include a wide variety of vegetables grown and delivered true to our values of Freshness, Safety and Sustainability.
