ANS IT PVT LTD l C-124A,Sector-2,Noida,UP-201301

Software Engineer

- Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability and performance.
- Reviewed project specifications and designed technology solutions that met or exceeded performance expectations.
- Updated old code bases to modern development standards, improving functionality. Collaborated with clients to define solution requirements.
- Integrated third-party tools and components into applications.
- Played the role of support developer in other ongoing projects across different teams.
- Represented software applications engineering team during large and complex development projects.

October 2020 - March 2021
Inventory Solution PVT LTD l New Delhi,India

Intern

- Developed responsive and user-friendly web pages: Collaborated with the team to create and implement visually appealing designs using HTML, CSS, and Bootstrap framework, ensuring seamless user experience across different devices.
- Implemented interactive features with JavaScript: Utilized JavaScript to enhance website functionality, such as form validation, dynamic content, and smooth animations, contributing to an engaging and interactive user experience.
- Collaborated with cross-functional teams: Worked closely with designers, backend developers, and project managers to understand project requirements, provide input on design feasibility, and integrate frontend components into the overall development process.

Projects

Social Module (Advertisment Management Platform)

Role: Frontend Developer (Angular)

Technology: Angular ,BootStrap, .Net5, SQL.

- Developed, fixed bugs and managed Web Application using Angular.
- Provide ongoing application support and troubleshooting.
- Establish, build and manage relationships with corporate partners.
- Used object-oriented principles for class development to streamline efficiency and ensure a scalable and reusable architecture.

DNCR Property (Real Estate Platform)

Role: Frontend Developer (JS, Angular), Mobile Application Developer (React Native)

Technology: JavaScript, Angular ,BootStrap, .Net Framework, SQL.

- Developed Mobile Application for both Android and IOS.
- Developed Web Application using Angular.
- Played the role of Team Lead to take the project to success.
- Provide ongoing application support and troubleshooting.
- Establish, build and manage relationships with corporate partners.
- Used object-oriented principles for class development to streamline efficiency and ensure a scalable and reusable architecture

SpinePlus Healthcare (Healthcare Domain)

Role: Mobile App Developer (React Native)

Technology: Angular ,React Native, NodeJS

- Developed and managed Mobile Application using React Native
- Provide ongoing application support and troubleshooting.
- Establish, build and manage relationships with corporate partners.
- Used object-oriented principles for class development to streamline efficiency and ensure a scalable and reusable architecture

IM Matrimony (Matrimony)

Role: Mobile App Developer (React Native)

Technology: React Native,ReactJS, .Net5, SQL.

- Developed and managed MobileApplication using React Native
- Provide ongoing application support and troubleshooting.
- Establish, build and manage relationships with corporate partners.
- Used object-oriented principles for class development to streamline efficiency and ensure a scalable and reusable architecture.

ADDITIONAL INFORMATION

I am currently a frontend developer. Proficient with angular TS,java script, react, and react native. I have one-year of experience in software development. I have also worked on dev ops and have knowledge of handling builds on both development and production.

I have also managed frontend and mobile apps simultaneously for some projects and showed excellent results in multitasking across multiple languages. I always have clear and complete knowledge and understanding of projects I am working on and make decisions for better outcomes.
